## Oggetti, Storie

Tacchini è una filosofia. Dietro ogni oggetto c'è una storia e dietro ogni storia c'è una persona. Ci innamoriamo dei nostri prodotti, delle loro storie e delle storie di chi li costruisce, di chi continua a fare le cose a mano, in modo tale che questa storia possa continuare, possa essere trasmessa dal designer al produttore e dal produttore al futuro proprietario del prodotto. E poi continuare ancora.

### (Eng) Objects, Stories

Tacchini is a philosophy. Behind every object there's a story and behind every story there's a person. We also fall in love with our products, their stories and the stories of those who have produced them and continue to make things by hand so that this story continues, is passed on by the designer to the creator and from the creator to the future owner of the product. And then it continues further.

**Tacchini for quality**  
Natural warmth and technological innovation, manufacturing and care for details, safety and wellbeing. Concrete values you can find in every product and space. Quality represents a key element in design for Tacchini, it takes shape with materials selection and care for the manufacturing process. It goes on beyond the product, through trade and after-sales services reliability. Tacchini is nowadays a reference point in furniture business, thanks to its constant stylistic and functional research, project and product culture, care for people and environment. With its furniture, Tacchini wants to improve home and public spaces' quality, in a world dominated by constant changing in needs, technologies and new lifestyles.

Images that speak of discreet, almost intimate moments: the secret rooms are revealed, as are their inhabitants. The great Tacchini house opens its doors, exposing instants stolen from an everyday life built on care and attention for materials and tools, but also for the people that handle them with such dedication. A place where everyone has a role, and everyone is part of a unique story.

### Design dell'Essere

Il design è italiano, il resto è produzione. E in Italia, le aziende di design portano il nome delle famiglie che ne hanno fondato il marchio. Come Tacchini, creata nel 1967 da Antonio: quando anche la produzione era quasi esclusivamente italiana, e sono stati scritti i brani più poetici e entusiasmanti della storia del design. Naturale che i figli diventino poi gli eredi, e ogni volta fondatori, secondo una logica di continuo aggiornamento e rielaborazione di un pensiero: ciò che viene realmente tramandato. Così come è naturale che chi frequenta questa famiglia ne diventi parte: collaboratori, consulenti, fornitori, dipendenti, maestranze, clienti. Ancora oggi, in questa famiglia, la forza dell'idea è al centro di ogni momento creativo, in un normale evolversi: dall'astrazione del pensiero alla tridimensionalità dell'oggetto, per poi diventare l'essenza dell'abitare. Questo procedere costante garantisce il legame con la contemporaneità, valorizzato poi dalla scelta di materiali di qualità e tecnologie sempre aggiornate e sempre riferite a una tradizione da non perdere: evitando così la possibilità di confondere lo stile con le mode e il design con la semplice produzione di serie. Inevitabile che la storia di una famiglia si rifletta poi nei luoghi che essa abita: la sede di un'azienda è lo specchio delle persone che ci lavorano e della filosofia a cui esse si ispirano. La casa di Tacchini è un'architettura mossa su due livelli, incrocio di materiali e spazi che si fondono in un unico luogo di pensiero e sintesi dello stesso. Sullo sfondo, la Brianza, tra Como e Milano, troppo verde e accecante in estate e troppo grigia e intimista in inverno:

questi luoghi, così estremi, diventano lo sfondo di questa storia, autentica culla del design, dove gli uomini e le idee si fondono nella cultura del progetto. Ogni oggetto, ciascun arredo che provenga da questa casa, porta con sé l'imprinting del design italiano: capace di rendere luogo qualsiasi spazio, sia esso pubblico o privato, domestico o collettivo, e riempiendolo dell'esserci.

#### (Eng) *Design Being*

The design is Italian, the rest is production. And in Italy, design companies bear the names of the families that founded the brands. Like Tacchini, created in 1967 by Antonio, when production, too, was almost entirely Italian, and the most poetic and soul-stirring passages in the story of design were written. Naturally in time the children become the heirs, and the new founders, in a rationale of continuous updating and redefinition of the underlying idea, and that is what is actually handed down. Equally naturally, those who frequent the family become a part of it: team members, consultants, suppliers, employees, workers and clients. Still today, in this family, the strength of the idea is central to every creative process, in a logical process of evolution, from the analysis of the idea to the three dimensions of the object, before ultimately becoming the essence of living. This ongoing process ensures a sense of connection with contemporary style, which is then further enhanced by the choice of quality materials and leading-edge technology, and always referencing an all-important tradition, so as to avoid the danger of confusing style with

fleeting fashions and design with simple mass production. Inevitably, the story of a family is reflected in the places they inhabit: the headquarters of a company mirrors the people who work there and the philosophy to which they aspire. The Tacchini building features an architecture structured into two storeys, a fusion of materials and spaces that blend into a complete whole, expressing its ethos and essence. In the background, Brianza, between Como and Milan, too blindingly green in summer, too grey and inward-looking in winter; these places with their extremes form the backdrop to this story, the very birthplace of design, where people and ideas merge with the design culture. Each object, each piece of furniture created in this building carries within it the hallmark of Italian design: the ability to give any space a sense of place, be it public or private, domestic or communal, filling it with presence.

#### (Deu) *Objekte, Geschichten*

Tacchini ist eine Philosophie. Hinter jedem Gegenstand steht eine Geschichte, hinter jeder Geschichte, ein Mensch. Wir lieben unsere Produkte, ihre Geschichte und die Geschichte der Menschen, die sie bauen, die sie weiterhin mit ihren Händen erschaffen, damit die Geschichte weitergehen kann, vom Designer weitergegeben an den Hersteller, vom Hersteller an ihre zukünftigen Eigentümer. Um wieder weiterzugehen.

#### *Design des Lebens*

Das Design ist italienisch, der Rest ist Produktion. In Italien tragen

#### Made by Hand

There are stories that are told through the immediacy of an object: domesticated materials speak of the hands that have shaped them, the shape suggests technological innovation and a culture of experience, while the function reveals the poetry of the design's beau geste. And the story of a design company is narrated in each of the chapters of its production, like precious snapshots of a long tale still to be written. Each project is the meeting point between experience and research, devotion and emotion, then enriched by passing time in the places where we live, where each of us interacts with our own experiences, in an ongoing relay between present and memory.

#### Made in Italy

All Tacchini products are manufactured in the verdant area of Brianza between Milan and Como, with its strong tradition of Italian manufacture and craft. All the materials and semi-finished products come from a zone of about 50 km around the Tacchini plant and this, as well as allowing direct control of their quality, also enables the pollution and energy consumption deriving from their transport to be reduced to a minimum. A special feature which makes Tacchini an even more special name, also as regards the eco-sustainability of the furniture.

Designerfirmen den Namen der Familien, die sie gegründet haben. Wie Tacchini, der 1967 von Antonio ins Leben gerufene Betrieb: als auch die Produktion noch fast ausschließlich italienisch war und Poesie und Enthusiasmus die Geschichte von Design geprägt haben. Natürlich geht das Erbe auf die Söhne über, die das Bestehende immer wieder aktualisieren und neu bearbeiten und ihrerseits das begründen, was tatsächlich weitergegeben wird.

Ebenso natürlich gehören bald alle zur Familie, die mit ihr zu tun haben: Mitarbeiter, Berater, Lieferanten, die ganze Belegschaft, Kunden. Auch heute noch steht in dieser Familie die Kraft der Ideen in einer normalen Entwicklung im Mittelpunkt jeder Kreativität: von der Abstraktion des Gedankens zur dreidimensionalen Größe eines Gegenstandes, der dann zum wesentlichen Bestandteil unserer Wohnwelt wird. Dieser kontinuierliche Prozess sorgt für den zeitgemäßen Charakter, der durch hochwertige Materialien und modernste Technik noch betont wird, ohne eine Tradition zu verlieren, die unverzichtbar ist: um nicht Stil mit Mode zu verwechseln und Design mit einer einfachen Serienproduktion. Unvermeidbar, dass sich die Geschichte einer Familie auch in den von ihr bewohnten Orten widerspiegelt: der Sitz eines Unternehmens ist der Spiegel der dort arbeitenden Menschen und der Philosophie, von der sie sich leiten lassen. Das Haus von Tacchini ist eine lebendige Architektur auf zwei Ebenen, eine Kreuzung aus Materialien und Räumen, die zu einem einzigen Ort der Gedanken und ihrer Synthese verschmelzen. Im Hintergrund die

Brianza, die Region zwischen Como und Mailand, zu grün und zu blendend im Sommer, zu grau und zu intim im Winter: diese Orte der Extreme werden zur Kulisse dieser Geschichte, authentische Wiege des Designs, wo Menschen und Ideen in der Kultur der Entwürfe verschmelzen. Jeder Gegenstand, jedes Möbel aus diesem Hause ist von Design im italienischen Stil geprägt: damit jeder Raum, ob öffentlich oder privat, häuslich oder kollektiv, zu einem lebendigen Ort werden kann.

#### *(Fra) Objets, Histoires*

Tacchini est une philosophie. Derrière chaque objet il y a une histoire et derrière chaque histoire il y a une personne. Nous tombons amoureux de nos produits, de leurs histoires et des histoires de qui les fabrique, de qui continue à faire les choses à la main, de manière que cette histoire puisse continuer, qu'elle puisse être transmise du designer au producteur et du producteur au futur propriétaire du produit. Et ainsi de suite, à l'infini.

#### *Design de l'Être*

Le design est italien, le reste est production. Et en Italie, les éditeurs de design portent le nom des familles qui en ont créé la marque. Comme Tacchini, créée en 1967 par Antonio, quand la production aussi était exclusivement italienne, et qu'ont été écrites les pages les plus poétiques et enthousiasmantes de l'histoire du design. Il est naturel que les enfants en héritent et se transforment parfois eux-mêmes en fondateurs, suivant une logique de mise à jour et réélaboration perpétuelle d'une pensée : ce qui est réellement transmis.

Tout comme il est naturel que ceux qui fréquentent cette famille en fassent partie : collaborateurs, consultants, fournisseurs, salariés, ouvriers, clients. Aujourd'hui encore, dans cette famille, la force de l'idée est au cœur de chaque moment créatif, dans une évolution logique : de l'abstraction de la pensée à la tridimensionnalité de l'objet, pour devenir ensuite l'essence de l'habitat. Cette progression constante garantit le lien avec le contemporain, valorisé par le choix de matériaux de qualité et de technologies sans cesse améliorées et ayant toujours à l'esprit la tradition à préserver, en évitant ainsi la possibilité de confondre le style avec les modes et le design avec la simple production en série. Il est inévitable que l'histoire d'une famille se reflète dans les lieux qu'elle habite. Le siège d'une entreprise est ainsi le miroir des personnes qui y travaillent et de la philosophie à laquelle elles s'inspirent. La maison de Tacchini est une architecture élaborée sur deux niveaux, croisement de matériaux et d'espaces qui se fondent en un lieu unique de pensée et en sont la synthèse. En décor de fond, la Brianza, entre Côme et Milan, trop verte et éblouissante en été et trop grise et intimiste en hiver... Ces lieux, si extrêmes, deviennent le cadre de cette histoire, authentique berceau du design, où les hommes et les idées se fondent dans la culture du projet. Chaque objet, chaque meuble qui provient de cette maison, porte avec lui l'imprinting du design italien : capable de faire de chaque espace un lieu, qu'il s'agisse d'une structure publique ou privée, domestique ou collective, en le remplissant du seul fait d'y être.

## Roma

Quasi sospeso dal pavimento, con esilissime gambe che sorreggono la seduta ampia e avvolgente. Jonas Wagell immagina una famiglia di divani, ispirati dal segno morbido di una curva a emiciclo: questa piccola collezione si chiama Roma, evocando in modo sensibile, dalla poltrona alla chaise longue, passando per il divano, l'ambito classico a cui si possono ricondurre i segni stilistici del disegno. Un rimando al design degli anni '50, non di manierismo ma di attenta ispirazione: per un progetto nato già 'classico', appunto, anche nel nome.

Designer, Year: Jonas Wagell, 2017/2018

(Eng) Almost suspended above the floor, with the slenderest of legs upholding a large, cosy seat. Jonas Wagell imagines a family of sofas, inspired by the soft, curving form of a semicircle: this little collection, from armchair to sofa to chaise longue, is called Roma, a strong reference to the classical sphere in which its lines are rooted. With citations from fifties design, not of affectation, but of clear inspiration, this design is "classical" by nature, and not only in name.

## Roma

(Deu) Der komfortable, körperegerechte Sitz ruht auf dünnen Beinen und scheint über dem Boden zu schweben. Jonas Wagell hat eine Linie von Sofas in den weichen Linien eines Halbrunds entworfen: die kleine Kollektion heißt Roma und alle, von Sessel und Chaiselongue bis Sofa, sind ein sehr einfühlsamer Bezug auf den klassischen Charakter dieser Stadt, der den Linien ihres Designs zugrunde liegt. Aufgegriffen wird das Design der Fünfzigerjahre, keine Nachahmung, sondern sensible Inspiration für einen geborenen „Klassiker“, wie bereits der Name sagt.

(Fra) Comme suspendue par rapport au sol avec des pieds très fins qui soutiennent l'assise ample et enveloppante. Jonas Wagell imagine une famille de canapés, s'inspirant de la douce sinuosité d'un hémicycle : cette petite collection s'appelle Roma, évoquant de manière sensible, du fauteuil à la chaise longue en passant par le canapé, le cadre classique auquel appartiennent les traits stylistiques du dessin. Un renvoi au design des années 1950, qui ne relève pas du maniérisme mais qui est le fruit d'une inspiration authentique pour un projet né déjà « classique », jusque dans le nom.

*Design Classics: Sesann*  
Respecting the thought of Gianfranco Frattini, the new edition of Sesann keeps the spirit of the product intact. Characterized by a leather upholstery, Sesann owes its typical soft and enveloping form to the structure in pine plywood, covered with polyurethane foam and encircled with an architectural tubular steel (chromed or painted), with feet in ash wood. The particular configuration of Sesann – both formal and functional – constitutes the basis for a system of products characterized by the same structural elements, but declined in unique and fascinating objects. This approach of synthesis and reduction, proposed by Frattini, produced a formally elegant design, conceptually elaborated and, above all, unique.

*Designer: Gianfranco Frattini*  
Gianfranco Frattini was born in Padua, Italy, on 15th May, 1926. He graduated in Architecture, at the Politecnico, Milan, in 1953. At the end of the 50's, he is one of the founders of ADI, Association for Industrial Design. Frattini opened his own studio in Milan, after working in the office of his teacher and mentor Gio Ponti. In few years, he became an industrial designer, well-known worldwide. Among his many successful projects, in 1956 designed the chair model 849, nominated for the "Compasso d'Oro" Prize. Now, this armchair, which takes shapes from the original design, is proposed by Tacchini with the name of "Agnese".

(Deu) *Sesann*, Neuauflage eines historischen Modells von Gianfranco Frattini, ist eine Kollektion aus Sofas und Fauteuils. Die weichen, anheimelnden Formen lassen ein sinnliches Gefühl der Wärme entstehen. Erreicht wird das durch eine Metallrohrstruktur, die wie eine Architektur die Polsterung umschließt, zusammenhält und optimal zur Geltung bringt. Mit den wuchtigen Volumen und dem elegant raffinierten Design beherrscht Sesann den Raum; Leder- oder Stoffbezug lassen sehr effektvolle, farbliche und stoffliche Kombinationen von Polsterung, Struktur und Füßen aus Eschenholz entstehen.

(Fra) Réédition d'un projet historique de Gianfranco Frattini, Sesann est une collection de canapés et de fauteuils dont les formes douces et accueillantes suscitent une sensation de sensualité et de chaleur. Tout le mérite en revient à la structure en tube métallique qui comme une architecture enveloppe, contient et met en valeur le rembourrage. Protagoniste de l'espace grâce à ses volumes importants et à son design élégant et raffiné, Sesann peut être revêtu de cuir ou de tissu pour créer des associations de couleurs et de matières d'un grand effet entre rembourrage, structure et pieds en bois de frêne.

(Eng) The soft and cosy seating of the Santiago collection is the fruit of the skilled use of proportions. ## Santiago

(Deu) Die weichen, komfortablen Sitzmöbel der Kollektion Santiago entstehen aus einem Spiel mit Proportionen. Schlanke, nicht sehr hohe Füße stützen die runden, großzügigen Volumen von Sitzfläche und Rückenlehne, volle Formen, die auch optisch Komfort und Entspannung signalisieren. Die Kollektion besteht aus einem Sofa und einem Lehnsessel mit Fußstütze, die einzeln oder gemeinsam in stilistisch unterschiedlichen Räumen gut bestehen können.

(Fra) Avec leurs lignes douces et accueillantes, les fauteuils et les canapés Santiago jouent habilement avec les proportions. Les pieds fins et de hauteur réduite soutiennent les volumes ronds et généreux de l'assise et du dossier en créant des formes pleines qui, y compris sur le plan visuel, invitent au confort et au repos. La collection est composée d'un canapé et d'un fauteuil avec repose-pieds, utilisables seuls ou ensemble, dans les contextes les plus variés.

## Millennium Drive

057

Scenografico nell'impatto visivo, eppure essenziale nelle forme, Millennium Drive accoglie il corpo in un morbido ed ergonomico abbraccio, caratterizza lo spazio con il suo design originale, giocato sul contrasto fra la seduta trapuntata e la base liscia, con rivestimento sfoderabile: una comodità nella comodità.

Designer, Year: Christophe Pillet, 2008

(Eng) Theatrical in its visual impact yet minimalist in design, Millennium Drive holds the body in a soft and ergonomic embrace and defines space with its original design, played out on the contrast between the quilted seating and the plain base with removable covers for convenience in comfort.

## Millennium Drive

(Deu) Millennium Drive, wirkungsvoll für das Auge und dennoch puristisch in den Formen, nimmt den Körper in einer weichen, ergonomischen Umarmung auf, das eigenwillige Design im spielerischen Kontrast von gesteppter Sitzfläche und glatter Basis verleiht dem Raum Charakter. Bezüge abnehmbar: für noch mehr Komfort.

(Fra) D'un grand impact visuel, bien qu'essentiel dans les formes, Millennium Drive accueille le corps dans une douce étreinte ergonomique, il caractérise l'espace avec son design original, joué sur le contraste entre l'assise matelassée et la base lisse avec revêtement déhoussable : une commodité en plus.

## Highlife

La soluzione è stata puntare sulla semplicità e sul dinamismo: ogni pezzo ha uno schienale con altezza diversa, mentre i braccioli ed i cuscini sono caratterizzati da una piacevole essenzialità. In questo modo si crea un gioco di forme e volumi interessante, con molteplici possibilità di composizione, creando sempre abbinamenti personali e spazi ideali per lavorare, dialogare o rilassarsi. Tutto questo con una realizzazione sartoriale e preziosa, nella quale i grandi bottoni cuciti a mano fanno da visibile riferimento al mondo della moda. Il tessuto che si indossa e si sveste come un abito e la possibilità di aggiungere cuscini addizionali, aggiungono un ulteriore tocco di eleganza, praticità e versatilità a questa nuova collezione.

Highlife (cat. Sofa) designed by Claesson Koivisto Rune (2011), base T03 Grey. Shown with: Split (cat. Low Table), base T07 Black, top T58 Black.

(Eng) Simplicity and dynamism are the key elements for this solution: every piece features backs in different heights, whilst arms and cushions are pleasantly essential. This way, you can play with shapes and volumes and several composition opportunities are offered to create customized matches and ideal spaces to work, chat or relax. A tailor-made creation, undoubtedly precious, where big hand stitched buttons are a clear reference to fashion. Fabrics look like a dress to be worn and taken off, and the possibility of additional cushions enriches this new collection in elegance, comfort and versatility.

## Highlife

(Deu) Die Lösung ist es auf Einfachheit und Dynamik zu pochen: jedere Artikel hat eine Rückenlehne in unterschiedlichen Höhen, während die Armstützen und die Kissen durch das Wesentliche gekennzeichnet werden. Auf diese Art wird ein Spiel interessanter Formen und Volumen geschaffen mit vielfältigen Kombinationsmöglichkeiten, wodurch persönliche Kombinationen und ideale Räumlichkeiten kreiert werden können um zu arbeiten, zu dialogieren oder um sich zu erholen. All das mit einer wertvollen Realisierung der Schneiderkunst durch welche die von Hand aufgenähten großen Knöpfe einen sichtbaren Bezug zur Welt der Mode darstellen. Der Stoffbezug, welcher wie ein Kleid an- und ausgezogen werden kann, und die Möglichkeit zusätzliche Kissen beizufügen, verleihen dieser neuen Kollektion einen besonderen Glanz an Eleganz, Praktik und Vielseitigkeit.

(Fra) Miser sur la simplicité et le dynamisme a constitué la solution : chaque pièce a un dossier avec une hauteur différente, alors que les accoudoirs et les coussins sont caractérisés par une agréable essentialité. Un jeu intéressant de formes et de volumes est ainsi créé, avec de nombreuses possibilités de composition, en concevant toujours des assortiments personnels et des espaces idéaux pour travailler, dialoguer ou se détendre. Tout cela avec une réalisation de couturier, précieuse, où les grands boutons cousus à la main sont une référence visible au monde de la mode. Le tissu que l'on revêt et que l'on ôte comme un vêtement et la possibilité d'ajouter des coussins supplémentaires apportent une touche ultérieure d'élégance, de praticité et de versatilité à cette nouvelle collection.

## Crystal

073

Crystal è un progetto dall'estetica sofisticata e inconsueta. La collezione comprende il divano – che combina linee oblique e linee curve ed è proposto in due dimensioni – e la poltrona dalla particolare forma tonda. Fil rouge della serie è la base invisibile, che fa sembrare le sedute sospese. Divani e poltrone vivono da soli oppure possono essere accostati per dare vita a composizioni suggestive ed efficaci, dentro ambienti domestici così come negli spazi contract.

(Eng) Crystal is a design with a sophisticated and unusual aesthetic. The collection includes a sofa – which combines oblique and curved lines, and comes in two sizes – and an armchair with a distinctive round shape. The key feature in both cases is the invisible base, which gives the impression that they are floating above the ground. Sofas and armchairs can stand alone or be grouped together to create spellbindingly effective compositions that look great both in domestic and contract settings.

Sofas und Fauteuils können einzeln eingesetzt werden oder zu optisch sehr effektvollen Kompositionen für den häuslichen Bereich, aber auch für Objekteinrichtungen verbunden werden.

## Montevideo

Linee e proporzioni studiate con cura, per offrire un comfort totale: questo è il principio ispiratore del divano Montevideo. Braccioli e schienale disegnano un'unica forma morbida e accogliente, completata da cuscini in piuma che sostengono la base della schiena. Ergonomico ed elegante, il divano Montevideo è inoltre abbinabile ad una poltrona coordinata. Un volume soffice che accoglie piacevolmente il corpo, un cuscino con imbottitura in piuma da posizionare liberamente per un comfort ancora più personalizzato: è la poltrona Montevideo, una sintesi di estetica ed ergonomia per gli ambienti più diversi, da sola o in abbinamento al divano dal design coordinato.

Armrests and backrest trace a soft and cozy outline, complete with feather cushions supporting your lower back. Ergonomic and elegant, the Montevideo sofa is also paired with a matching armchair. A soft, enveloping frame that warmly accommodates the body, a feather cushion to be arranged at will for a more customized comfort: this is the Montevideo armchair, the net result of aesthetic and ergonomic principles and designed for a variety of settings, either as stand-alone or combined with its matching sofa.

## Ischia

In principio sono le rocce plasmate dall'aria e dall'acqua, le venature dei sassi, le sovrapposizioni e gli incastri perfetti creati dalla natura. Poi, quando la forma organica ispira quella artistica, nascono i monoliti di Barbara Hepworth e le opere astratte di Serge Poliakoff. Si colloca su questa linea il nuovo progetto di PearsonLloyd, un sistema modulare influenzato da forme naturali e suggestioni artistiche, destinato ad ambienti collettivi. Ischia è composto di elementi singoli, liberamente combinabili: i sedili sono singoli o doppi, senza schienale o con schienale. Il sistema offre la possibilità di aggiungere il tavolino o il paravento in paglia di Vienna, che separa e nasconde. L'essenzialità degli elementi, caratterizzati da forme morbide e linee oblique, è bilanciata dalle finiture importanti delle basi in legno o marmo che connettono tra loro gli elementi.

Designer, Year: Pearson Lloyd, 2017

(Eng) In the beginning there were rocks, shaped by the wind and the waters, veined stones, perfectly overlaid or slotted together by nature. Then, when organic shapes inspired artistic forms, we saw monoliths such as those of Barbara Hepworth and abstract paintings from Serge Poliakoff. Descended from this same line is the new design by Pearson Lloyd, a modular system influenced by natural shapes and artistic allusions, destined for collective settings. Ischia comprises a number of freely-combinable individual components: the seats can be single or double, and come with or without a backrest. The system also offers the possibility of adding a table or a woven cane screen, to keep any given area separate and hidden away. The components have an essential feel, with soft shapes and oblique lines, balanced out by the strong finishes of the wood or marble bases that connect them up.

## Ischia

(Deu) Am Anfang wurden die Felsen von Luft und Wasser geformt, Steinadern, Überlagerungen und perfekte Verbindungen, die von der Natur geschaffen werden. Dann, wenn die organische Form die künstlerische inspiriert, entstehen die Monolithen von Barbara Hepworth und die abstrakten Arbeiten von Serge Poliakoff. Auf dieser Linie bewegt sich das neue Projekt von PearsonLloyd, ein modulares System für Gemeinschaftsräume, das von natürlichen Formen und künstlerischen Impressionen beeinflusst ist. Ischia besteht aus einzelnen Elementen, die beliebig kombinierbar sind: einzel- oder doppelsitzig, mit oder ohne Rückenlehne. Das System kann durch einen kleinen Tisch oder einen Schirm aus Wiener Geflecht zur Trennung oder als Sichtschutz ergänzt werden. Der Schlichtheit der Elemente, geprägt durch weiche Formen und schräge Linien, stehen anspruchsvolle Sockel aus Holz oder Marmor zur Verbindung der Elemente gegenüber.

(Fra) Au commencement, il y a les roches modelées par l'air et par l'eau, les veines des pierres, les superpositions et les encastrements parfaits créés par la nature. Puis, quand la forme organique inspire la forme artistique, naissent les monolithes de Barbara Hepworth et les œuvres abstraites de Serge Poliakoff. C'est dans cette lignée que se place le nouveau projet de PearsonLloyd, un système modulaire influencé par des formes naturelles et des suggestions artistiques, destiné à des espaces collectifs. Ischia est composé d'éléments distincts se composant librement : les éléments d'assise sont simples ou doubles, avec ou sans dossier. Le système offre la possibilité d'ajouter la table basse ou le paravent en cannage, qui sépare et cache. L'aspect essentiel des éléments, caractérisés par des formes douces et des lignes obliques, est équilibré par les finitions importantes des bases en bois ou en marbre qui relient les éléments.

Les éléments qui le composent sont caractérisés par des volumes pleins et des coupes obliques et peuvent se combiner entre eux pour créer des canapés et des fauteuils, avec ou sans dossier. Polyvalent, accueillant et d'un grand effet esthétique, le système est complété par la table basse Polar.

## Polar Perch

Il progetto Polar nasce nel 2006 dalla creazione di un oggetto multifunzionale, utilizzabile come seduta e tavolino, e da allora si è evoluto in una completa collezione di elementi d'arredo, ispirati della natura e dallo studio degli ambienti contemporanei. Polar Perch introduce in questo “work in progress” un'inedita coppia di elementi curvi, di altezza diversa e con forme complementari. L'elemento più basso può diventare un divano, mentre quello più alto può essere utilizzato come seduta da appoggio. Un concetto d'arredo innovativo, per creare infinite soluzioni, nei più diversi spazi collettivi.

(Eng) The Polar project began in 2006 with the creation of a multifunctional piece that could be used as a seat and an occasional table. Since then it has evolved into a complete furniture collection that draws its inspiration from nature and from the study of contemporary spaces. In the context of this “work in progress”, Polar Perch introduces an original pair of curved elements of different heights and complementary shapes. The lower element can be used as a sofa, while the higher one offers seating support. An innovative furnishing concept with scope to create innumerable solutions for the widest range of communal areas.

## Intercity

Intercity è un sistema componibile che permette di creare spazi a misura di qualsiasi ambiente ed esigenza. La scelta di moduli base è ampia e comprende elementi imbottiti con o senza schienale, sia lineari che curvi. Le sedute lineari, anche con tavolino integrato in marmo di Carrara opaco o Basaltina, si possono accostare a piacimento per comporre diverse soluzioni, anche le più particolari, come quelle rese possibili dall'elemento con schienale a forma di esse, che crea una seduta bifacciale, o dagli elementi con sedute 'face to face'. Grazie ai moduli curvi si realizzano anche composizioni ad arco oppure a isola. Completa il sistema di sedute il pouf rotondo, con o senza piano in marmo inserito.

Designer, Year: Pietro Arosio, (1999) 2018

(Eng) Intercity is a modular system for creating spaces tailored to any room and need. The wide choice of base modules includes upholstered elements with or without back, both straight and curved. The straight seats, also with integrated side table in matte Carrara marble or Basaltina, can be combined as preferred to compose different solutions, even the most unusual ones, such as those made possible by the module with S-shaped back which creates a double-sided seat, or by the modules with "face-to-face" seats. Arch or island compositions can be created thanks to the curved modules. The seating system also includes a round pouf, with or without integrated top in marble.

(Deu) Intercity ist ein zusammenstellbares Einrichtungssystem, mit dem Räume nach Maß für jedes Ambiente und Bedürfnis gestaltet werden können. Die umfangreiche Auswahl an Grundmodulen enthält gepolsterte Elemente mit oder ohne Rückenlehne, in gerader oder runder Form. Sehr speziell die doppelseitige Zusammenstellung dank Rückenlehne in S-Form, oder die Elemente mit Sitzflächen „face-to-face“. Die runden Module können zu bogenförmigen Kompositionen oder Sitz-Inseln verbunden werden. Ein runder Hocker, mit oder ohne Marmorplatte, komplettiert das Einrichtungssystem.

(Fra) Intercity est un système modulaire qui permet de créer espaces adaptés à n'importe quel environnement et exigence. Il dispose d'un vaste choix de modules de base et comprend des éléments rembourrés avec ou sans dossier, linéaires ou courbes. Les banquettes linéaires, également avec table basse incorporée en marbre de Carrare mat ou Basaltina, peuvent être juxtaposées à volonté pour créer différentes solutions, même les plus particulières, comme celles rendues possibles par l'élément avec dossier en forme de « S », qui crée une banquette biface, ou par les éléments avec assises vis à vis. Grâce aux modules courbes, il est possible de réaliser également des compositions en arc de cercle ou en îlot. Le système est complété par un pouf rond, avec ou sans plateau en marbre inséré.

**Matt, Shiny Painted Metal**  
Our metals are painted using epoxy powder coating, in an aspirated closed circuit, so as to reduce emissions into the atmosphere. Our experience and ongoing research have led us to select components and painting cycles that offer the best possible guarantee for the end product. All paints used by Tacchini are also developed and tested to comply with environmental protection standards. The results are seen in the excellent finishes, with great surface hardness, resistance to ageing, scratching, abrasions and discolouring.

**Chromed Metal**  
Chrome plating means coating a metal with a thin layer of chrome so as to protect it from tarnishing and rusting. Chrome is a natural element, found in rocks, in the earth and in materials of vegetable and volcanic origin. Galvanic finishes ensure great resistance, in addition to handsome looks and natural dust repellence. What's more, using carefully monitored and guaranteed production processes, Tacchini ensures a durable, resilient product, all the while upholding environmental protection standards, which we also demand of all our suppliers.

**Marble**  
Marble is a natural material created from sedimentary rocks such as limestone or dolomite, by a metamorphic process that causes the calcium carbonate to crystallize. The beauty and uniqueness of Tacchini pieces made using marble lies in the veining: in so many different forms, always unique, like the autograph of nature itself, the greatest of all artists. The colour of the marble depends on the presence of contamination from other minerals such as clay, silt, sand, iron oxides or flint nodules, occurring in granules or layers within the original sedimentary rock. White marble derives from the transformation of calcareous rocks with no impurities. Marble is used in two different finishes: the natural finish, either polished or matt, which accentuates the porosity and tactile essence of the material, or a polyester-coated finish, which affords greater protection to the surface of the marble, improving its impermeability to all liquids.

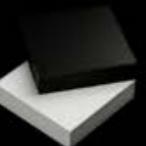

**Glass, Mirror**  
Common glass is a material made purely of silica, like quartz. In its purest form, glass is transparent, with a smooth surface, relatively hard, and almost entirely inert from a chemical and biological point of view. The glass used in furniture comes in a wide range of finishes and colours, and its intrinsic fragility can be overcome with chemical treatments, adding other minerals to the mix, or with physical processes, such as tempering. Rear-painted glass is made by colouring the back of the pane: the resulting surface effect is extra glossy, but transparent around the edges.

**Wood**  
Wood is a natural material that is difficult to contain within a single definition. Indeed, there can be considerable differences in grain and coloration, distinctive characteristics that define its origins and constitute its main aesthetic value. Tacchini products are made exclusively using wood sourced from areas of controlled reforestation, under the protection of laws and of local and international organizations, showing proper respect for nature and taking care of the environment we live in.

**Lacquered Wood**  
Tacchini's table tops are made of wood fibre, faced then lacquered on both sides using specific paints. The lacquering comes in three different finishes: the first is slightly embossed (cod. T-B), giving a midly textured look to the surface, the second is a velvet finish (cod. T-A) using polyurethane to transform the wood into a soft, perfectly scratchproof surface, like a velvet diamond, and the third is a gloss finish.

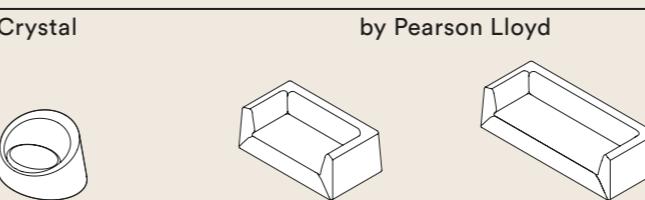

**Full color**  
Full color is a material made of sheets of paper soaked in heat-curing resin, then exposed to the combined action of heat and high pressure. It is dyed through, meaning that the same colour seen on the surface is also visible throughout the entire thickness of the top.

**Laminate**  
The laminates used in Tacchini table tops are produced at high pressure: made of numerous layers of paper soaked in heat-curing resins and compacted through the combined action of heat and high pressure. This particular type of laminate, with standards set and guaranteed by European certification, offers exceptional durability and resistance to all stresses.

Tacchini is a philosophy. Behind every object there is a story and behind every story there is a person.  
We fall in love with our products, their stories and the stories of those who have produced them,  
and continue to make things by hand — so that this story continues, is passed on by the designer  
to the creator, and from the creator to the future owner of the product. And then, it continues further.
