## Design Classics

I maestri sono quelle figure carismatiche, capaci di insegnare e trasmettere un'arte: attraverso il proprio agire diretto, ma anche nel lascito delle loro opere stesse. Nel design, i maestri parlano attraverso i classici: progetti senza tempo e fuori da qualsiasi logica di mode e tendenze, ma talmente potenti da determinare naturalmente uno stile. Tacchini ha riservato alcune stanze del suo abitare ai classici e ai maestri che li hanno disegnati, in un percorso di riedizioni che sfida e insegna alla contemporaneità.

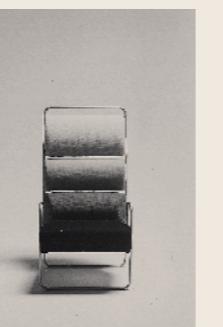

(Eng) *Maestri* or “masters” are those charismatic figures capable of teaching and handing down an art through their direct actions and also through the inheritance of their actual works. In design the maestri communicate through the classics, timeless designs far from any idea of fashions and trends yet so powerful as to produce a style naturally. Tacchini has set aside some rooms in its living environment for the classics and the masters who have designed them, in a process of revivals which are a challenge and a lesson on contemporary style.

1.  
There are designs which are born classics in name only. Babel is one of those designs and one of those names. In 1958 Achille Castiglioni designed this small armchair to add to the furniture of the Milan chamber of commerce. Comfort meets form and function which is revealed in the possibility of stacking this seat up like a tower. Its design was simple and archetypical, with a particular mixture of materials, visual texture and tactile effects.

2.  
The Sancarlo armchair is a treatise on statics, ergonomics, function and geometry. Commissioned at the time by Driade, Achille Castiglioni has taken up again the idea of the Sanluca, designed a few decades earlier with his brother Pier Giacomo. The result is the breaking-down of the seat into a series of cushions which curve to each part of the body they have to support.

## Design Classics

*Design Classics*  
A partire dalle avanguardie artistiche del secolo scorso, il design italiano continua a ispirare movimenti, espressioni e modi d’essere che trovano nella linea italiana la manifestazione più autentica della cultura del progetto. Qual è, dunque, il segreto del design italiano? Dove si nasconde il suo intramontabile spirito che tutt’oggi continua a guidare l’evoluzione della disciplina? Dalla fiducia in un futuro migliore al rigore tecnologico; dalla volontà di sperimentare e mettersi in gioco all’inimitabile coerenza formale, la linea italiana rappresenta l’espressione materiale di un pensiero collettivo, condiviso all’unanimità tra i più importanti protagonisti dell’epoca. Pier Giacomo e Achille Castiglioni, Umberto Riva e Gianfranco Frattini fanno parte di questo gruppo di progettisti illuminati del secolo scorso che hanno condiviso idee, pensieri e speranze per la disciplina progettuale, unendo il saper-fare manuale – caratteristico della produzione industriale del belpaese – all’ingegno tecnico, con la speranza di trasportare il mito del ‘buon design’ italiano nella realtà di tutti i giorni. Oggi, mezzo secolo dopo la loro creazione, i progetti realizzati da questi grandi maestri del passato continuano a rendere viva l’anima della linea italiana attraverso una serie di riedizioni realizzate da Tacchini, con la volontà di preservare e comunicare gli ideali che hanno guidato la loro creazione. Mantenendo l’integrità dei progetti originali, Tacchini ha adattato i disegni dei designer alla produzione odierna, trasportando la cultura del design dal passato alla contemporaneità.

3.  
"My method is to take out, again and over again, until I will find the main design component. The minimum sign, the minimum shape, required by the function. I want to get to say: less than this I can't do it." — Achille Castiglioni

4.  
From the simplest electrical switches to the most iconic project of modern design, Castiglioni brothers transformed their uncontrollable curiosity in a series of timeless pieces.

L'eroe del design italiano, Achille Castiglioni, assieme ai suoi fratelli Pier Giacomo e Livio, ha saputo trovare l'ironia e la bellezza nella semplicità della vita di tutti i giorni. Dai più banali interruttori elettrici ai progetti più iconici del design moderno, i fratelli Castiglioni hanno trasformato la loro incontrollabile curiosità in una serie di artefatti senza tempo. Tacchini propone la riedizione di due famosi pezzi di Achille Castiglioni, realizzati all'interno di un più ampio progetto dedicato alla riproduzione dei classici del design moderno. Babelia, disegnata nel 1958 assieme al fratello Pier Giacomo, e Sancarlo, che vede luce per la prima volta nel 1970, riassumono lo spirito dell'epoca unendo la sperimentazione formale all'innovazione tecnica. Per Babelia, una sedia impilabile disegnata in origine per la Camera di commercio di Milano, Achille e Pier Giacomo Castiglioni immaginano una torre fatta di sedute, facilmente trasportabili e impilabili, caratterizzata da un design lineare e archetipico, reso interessante da una particolare interazione tra materiali, texture visive ed effetti tattili. Sancarlo, dall'altro lato, gioca con forme organiche e tondeggianti per costruire una seduta flessibile e adattabile alle esigenze del corpo umano.

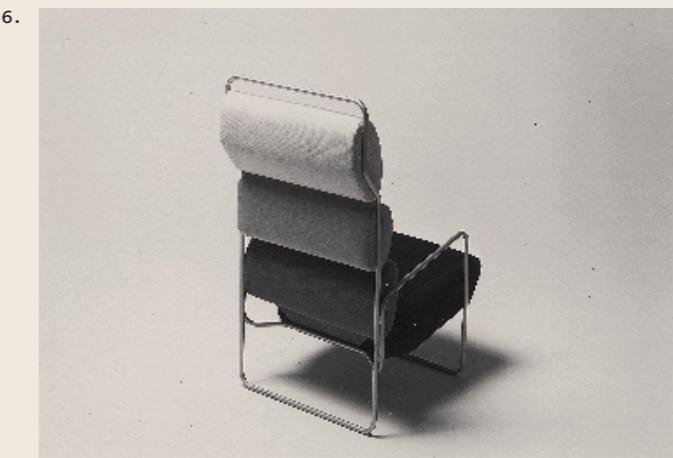

Gianfranco Frattini fa parte di quell'abile generazione di architetti e designer che hanno segnato il movimento del design italiano del secolo scorso. I progetti di Frattini vantano un'eleganza formale che comunica con chiarezza e semplicità le idee e le riflessioni che hanno portato alla loro creazione. Collaboratore di Gio Ponti all'inizio della carriera, Gianfranco Frattini svilupperà nel corso degli anni un personale e sintomatico approccio alla progettazione guidato da un'attenta ricerca formale e strutturale. Agnese e Sesann condividono la stessa anima progettuale, declinata in due diverse configurazioni visive. Agnese, disegnata nel 1956 nello studio in via Sant'Agnese a Milano, nasce dall'idea di proporre l'archetipo della poltrona informale, caratterizzata da una seduta imbottita — geometrica ed essenziale — supportata da una base in legno classica e lineare. Sesann, dall'altro lato, presenta una forma organica

e informale, realizzata avvolgendo una struttura in tubolare di metallo attorno a una morbida seduta imbottita. Riedizione di un progetto originale di Gianfranco Frattini risalente al 1957, ma ancora attuale nelle forme e nello spirito, la poltrona Giulia fa rivivere nello spazio contemporaneo una sensazione senza tempo di bellezza, comfort ed armonia. Impeccabile la realizzazione, come nella tradizione Tacchini, dalla scelta dei materiali per la scocca dalle forme avvolgenti, alla base in legno di frassino tinto noce scuro o grigio, di sapore artigianale. Tratto da un classico del design italiano, progettato nel 1957 da Gianfranco Frattini e segnalato lo stesso anno per il Compasso D'Oro, Gio è un tavolo basso che esprime un'idea di rigore razionalista e di eleganza raffinata, suscitando l'emozione di una calda atmosfera borghese. È caratterizzato dalla lineare struttura in legno e dal piano bifacciale in frassino tinto noce scuro o grigio da un lato, oppure in laminato giallo, grigio e blu acciaio dall'altro. Disegnato da Gianfranco Frattini nel 1957 e prodotto a partire dall'anno successivo, il divano 872 ha riscosso negli anni un grandissimo successo. Essenziale ed elegante, è caratterizzato da una struttura leggera in acciaio con piedini terminali in legno e dall'imbottitura capitonné di seduta e schienale, un dettaglio di grande sapienza artigianale.

Maestro della luce, Umberto Riva è nato a Milano nel 1928 e dal 1960 si occupa di progettazione. Allievo di Carlo Scarpa, Riva ha sviluppato una sua personale ricerca, percorrendo i più diversi ambiti disciplinari: dagli spazi urbani agli edifici, dal paesaggio agli interni, dall'allestimento al design di lampade e mobili. Nel 1963 nasce il modello di questa lampada, oggi rieditata con il nome E63. In una sigla alfanumerica, si racchiude la complessità intellettuale del suo progettista, Umberto Riva: un po' architetto, un po' designer, un po' artista, un po' addomesticatore della luce, e molto di tutto ciò. Una lampada da tavolo disegnata in modo esatto, con linee semplici per contenere superfici ampie, che sembrano dare forma solida alla luce stessa: acciaio, quasi come una corazza a proteggere la preziosa fonte.

"A piece of design is the result of the joint effort of many people with different and specific technical skills, industrial, commercial and aesthetic. The designer's work is the expressive synthesis of this collective effort. The main feature of a project is based on the relationship among several operators: from the manager to the last worker."

Gianfranco Frattini was born in Padua, Italy, on 15th May, 1926. He graduated in Architecture, at the Politecnico, Milan, in 1953. At the end of the 50s, he is one of the founders of ADI, Association for Industrial Design. Frattini opened his own studio in Milan, after working in the office of his teacher and mentor L. Gio Ponti. In few years, he became an industrial designer, well-known worldwide.

L. Gio Ponti (18 November 1891, Milan – 16 September 1979, Milan) was one of the most important Italian architects, industrial designers, furniture designers, artists, and publishers of the twentieth century.

10.  
Agnese is the name of the new version of the 849, the armchair designed by Gianfranco Frattini around 1956 in his Milan studio, in via Sant'Agnese in fact. All the style and radiance of an age take shape in the lines of this armchair which is much more than a classic and almost an archetype. Agnese, the armchair, is produced in a very accurate way and with extreme fidelity to the original design; moreover, following from Frattini's original project, the armchair is accompanied by a matching ottoman. Agnese is just the beginning of a comprehensive project that aims to support the revival of a great designer's style but also an entire atmosphere of interior decor.

11.  
Respecting the thought of Gianfranco Frattini, the new edition of Sesann keeps the spirit of the product intact. Characterized by a fabric or leather upholstery, Sesann owes its typical soft and enveloping form to the cold foam structure, encircled with an architectural tubular steel (chrome or painted), with feet in ash wood. The particular configuration of Sesann – both formal and functional – constitutes the basis for a system of products characterized by the same structural elements, but declined in unique and fascinating objects. This approach of synthesis and reduction, proposed by Frattini, produced a formally elegant design, conceptually elaborated and, above all, unique.

12.  
Relaunch of an original project of Gianfranco Frattini dated 1957, but still actual for its shapes and spirit, Giulia armchair creates in the contemporary space a timeless feeling of beauty, comfort and harmony.

The hero of Italian design, Achille Castiglioni, along with his brothers Pier Giacomo and Livio, was able to find irony and beauty into the simplicity of everyday life. From the simplest electrical switches to the most iconic project of modern design, Castiglioni brothers transformed their uncontrollable curiosity in a series of timeless pieces. Tacchini proposes the revival of two famous pieces of Achille Castiglioni, realized inside a larger project dedicated to the reproduction of classics of modern design. Babela, designed in 1958 along with his brother Pier Giacomo, and Sancarlo, created for the first time in 1970, sum up the spirit of the period joining the formal experimentation to technical innovation. Achille e Pier Giacomo Castiglioni designed Babela, a stackable chair, for the Milan chamber of commerce. They imagined a tower made by seats, stackable and easily transportable. Its design was simple and archetypical, with a particular mixture of materials, visual texture and tactile effects. On the other hand, Sancarlo, plays with rounded and organic shapes to allow a flexible seat, and, at the same time, suitable to the comfort of person.

Gianfranco Frattini is one of that skilled generation of architects and designers, who have marked the Italian design movement of the last century. Frattini's projects are characterized by a formal elegance, which is able to transmit clearly, and simply the ideas and thoughts that led to their creation. At the beginning of his career, he was a collaborator of Giò Ponti. Over the years, Gianfranco Frattini will develop a personal and symptomatic approach to the design based on a careful formal and structural research. Agnese and Sesann have the same soul of design, with two different visual configurations. Designed in 1956, in the studio in via Sant'Agnese in Milan, Agnese comes out from the idea to realize the archetype of the informal armchair. It is characterized by an upholstery seat – geometric and basic – with a classical linear and wooden base. On the other hand, Sesann is characterized by an organic and informal shape, made by wrapping a tubular metal around a soft and upholstered seat.

Relaunch of an original project of Gianfranco Frattini dated 1957, but still actual for its shapes and spirit, Giulia armchair creates in the contemporary space a timeless feeling of beauty, comfort and harmony. A flawless realization, typical of Tacchini's tradition, from the choice of materials for the embrace-shaped structure, to the ash wood basis dyed dark walnut or grey with artisan taste. Inspired by a classic piece of Italian design designed in 1957 by Gianfranco Frattini and nominated the same year for Compasso d'Oro, Gio is a low table which expresses an idea of rationalist rigor and refined elegance, creating the emotion of a warm bourgeois atmosphere. It is characterized by the linear wood structure and by the ash double face plan dyed dark walnut or grey on one side, or yellow, grey or steel blue laminated on the other side. Designed by Gianfranco Frattini in 1957 and produced as from the following year, the 872 sofa has achieved a huge success over the years. Minimalist and elegant, it features a lightweight structure in steel with end feet in wood and tufted upholstery on the seat and back, a detail requiring great craft expertise.

A master of lighting, Umberto Riva was born in Milan in 1928 and has worked in design since 1960. Having studied with Carlo Scarpa, Riva pursued his own personal research process via the most widely differing disciplines, from urban spaces to buildings, landscape to interiors, outfitting to the design of lamps and furniture. The design for this lamp dates back to 1963, and today it is reissued with the name E63. This alphanumeric code is a reflection of the intellectual complexity of its designer, Umberto Riva: part architect, part designer, part artist, part light-tamer, and a whole lot of all these things. A table lamp designed with great precision, featuring simple lines around broad surfaces, that seemingly give a solid form to the light itself: steel, almost armour, protecting the precious source.

Inspired by a classic piece of Italian design designed in 1957 by Gianfranco Frattini and nominated the same year for *Compasso d'Oro*, Gio is a low table which expresses an idea of rationalist rigor and refined elegance, creating the emotion of a warm bourgeois atmosphere.

*Compasso d'Oro* (Golden Compass) is the name of an Industrial Design award originated in Italy in 1954 by the La Rinascente company from an original idea of Gio Ponti and Alberto Rosselli. From 1964 it has been hosted exclusively by *Associazione per il Disegno Industriale* (ADI). It is the first and most recognized award in its field. The prize aims to acknowledge and promote quality in the field of industrial designs Made in Italy and is awarded by ADI.

Meister sind charismatische Persönlichkeiten, die andere ausbilden und ihre Kunst weitergeben: direkt durch ihre Arbeit, aber auch durch die Werke, die sie hinterlassen. Im Design sind es die Klassiker: zeitlose Entwürfe, die sich jeder Logik von Moden und Trends entziehen, aber von so starker Wirkung, dass sie ganz selbstverständlich einen Stil bestimmen. Tacchini hat einige Räume seiner Wohnwelt diesen Klassikern und ihren Meistern gewidmet, mit Neuauflagen, die sich mit dem Zeitgeist messen und ihn beeinflussen. Heute, ein halbes Jahrhundert später, sorgen diese Entwürfe großer Designer der Vergangenheit über diese Neuauflagen von Tacchini weiterhin dafür, den Geist von italienischem Design lebendig zu erhalten, von Tacchini wiederaufgenommen wurde, um die Ideale, die zu ihrer Erschaffung geführt haben, zu bewahren und zu verbreiten. Unter Beibehaltung des ursprünglichen Designs, hat Tacchini den Entwurf der Designer an moderne Produktionsprozesse angepasst und eine Designkultur der Vergangenheit in unsere Zeit übertragen.

Achille Castiglioni, charismatische Leitfigur des italienischen Designs, hat es gemeinsam mit seinen Brüdern Pier Giacomo und Livio verstanden, Ironie und Schönheit in der Einfachheit des Alltags zu finden. Vom banalsten elektrischen Schalter bis zu Kultobjekten des modernen Designs, haben die Brüder Castiglioni ihre unstillbare Neugierde in zeitlose Klassiker verwandelt. Tacchini bringt nun zwei berühmte Objekte von Achille Castiglioni in einer Neuauflage; sie sind Teil eines größeren Projektes, das der Reproduktion moderner Designklassiker gewidmet ist. Babelà, 1958 gemeinsam mit seinem Bruder Pier Giacomo entworfen, und Sancarlo, erstmals 1970 herausgekommen, fassen die Gesinnung dieser Epoche zusammen und verbinden experimentelle Formen mit technischer Innovation. Babelà, ein stapelbarer Stuhl, der ursprünglich für die Handelskammer Mailand entworfen wurde, ist in der Vorstellung von Achille und Pier Giacomo Castiglioni ein Turm aus

Sitzmöbeln, einfach zu transportieren und zu stapeln; das lineare, archetypische Design ist durch eine spezielle Interaktion von Materialien, visueller Textur und taktiler Wirkung besonders interessant. Sancarlo hingegen spielt mit organischen, gerundeten Formen, die ein vielseitiges Sitzmöbel ergeben, das sich dem Körper anpassen kann.

Gianfranco Frattini gehört zur begabten Generation von Architekten und Designern, die das italienische Design im vorigen Jahrhundert geprägt haben. Frattinis Entwürfe sind von einer Eleganz der Formen, die einfach und klar die Gedanken und Vorstellungen kommunizieren, die dem kreativen Prozess zugrunde liegen. Mitarbeiter von Giò Ponti zu Beginn seiner Karriere, entwickelte Gianfranco Frattini mit den Jahren ein persönliches, symptomatisches Designkonzept, das von einer aufmerksamen Formen- und Struktursuche geprägt ist. Agnese und Sesann sind vom gleichen kreativen Geist besetzt, der in zwei diverse, visuelle Konfigurationen abgewandelt wird. Mit Agnese, entworfen 1956 in seinem Atelier in der Via Sant'Agnes in Mailand, sollte der Urtyp eines

zwanglosen Fauteuils vorgestellt werden, mit charakteristischer, gepolsterter Sitzfläche – geometrisch und minimalistisch – die sich auf ein klassisches, geradliniges Untergestell aus Holz stützt. Sesann hingegen präsentiert eine organische, zwanglose Form, die entsteht, wenn eine Metallrohrstruktur einen weichen Polstersitz umschließt. Der Lehnsessel Giulia, Neuauflage eines Originalentwurfs von Gianfranco Frattini aus dem Jahr 1957, der in Form und Esprit immer noch aktuell ist, bringt in unser heutiges Ambiente das Gefühl von zeitloser Schönheit, Komfort und Harmonie zurück. Erstklassige Ausfertigung in der Tradition von Tacchini, von den gewählten Materialien für die anschmiegsame Form der Sitzschale bis zum Gestell aus Eschenholz, nussbaumfarbig dunkel oder grau, mit handwerklichem Flair. Der niedrige Tisch Gio, abgeleitet von einem Klassiker des italienischen Designs, der 1957 von Gianfranco Frattini entworfen und im gleichen Jahr

"Design is above all an effort to improve reality. I always try to begin with considerations of its function. I ask myself, who needs it, which materials best suit its functions and so on."  
— Gianfranco Frattini

15.  
Looking at the work of Gianfranco Frattini, the great master of modern Italian design, we find that this metaphysical spirit shines through every rounded shape, every detail and combinations of materials that characterize his projects. Frattini's products summarize, in their particular formal configuration, thoughts, dreams and concerns of modern design: the utopian vision and confidence in a better future, the daily quality of life and the satisfaction that can be drawn from the smallest familiar action.

für den *Compasso D'Oro* nominiert wurde, bringt nüchterne Strenge und raffinierte Eleganz zum Ausdruck, die eine warme, bürgerliche Atmosphäre verbreiten. Charakteristisch das geradlinige Holzgestell und die doppelseitige Platte aus Eschenholz: nussbaumfarbig dunkel oder grau auf der einen Seite und Laminat gelb, grau oder stahlblau auf der anderen. Entworfen von Gianfranco Frattini im Jahr 1957, ging das Sofa 872 im Jahr darauf in Produktion und war in all den Jahren überaus erfolgreich. Das elegante, minimalistische Sitzmöbel hat seine prägenden Merkmale im schwerelosen Stahlgestell mit Stellfüßen aus Holz und in der handwerklich kunstvollen Kapitonierung von Sitz und Rückenlehne.

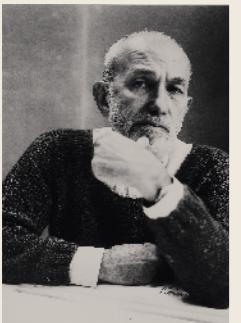

Umberto Riva, ein Meister des Lichts, wurde 1928 in Mailand geboren und beschäftigt sich seit 1960 mit unterschiedlichen Planungen. Riva, Schüler von Carlo Scarpa, hat seinen persönlichen Weg entwickelt, der durch mehrere Disziplinen führt: Stadt- und Bauplanung, Landschaftsplanung und Innenarchitektur, Raumszenierung und Lampen- und Möbeldesign. 1963 wurde diese Lampe entworfen, die jetzt mit der Bezeichnung E63 neu herausgebracht wird. Ein alphanumerischer Code, der für die intellektuelle Komplexität ihres Autors, Umberto Riva steht: ein wenig Architekt, ein wenig Designer, ein wenig Künstler, ein wenig Lichtbeherrscher, und viel von all dem. Eine mit großer Präzision designete Tischlampe, schlichte Linien, um große Flächen einzuschließen und dem Licht eine feste Form zu geben: Stahl, fast wie ein Panzer, der eine kostbare Quelle schützt.

Having studied with Carlo Scarpa, Riva pursued his own personal research process via the most widely differing disciplines, from urban spaces to buildings, landscape to interiors, outfitting to the design of lamps and furniture. Considered an out-of-the-ordinary architect, Riva has retained an artisan dimension in architecture and design work. His designs are "born drawn", pencil sketches of a pure and poetic research.

"I love this lamp, and it doesn't happen so often. I feel it as a friend. This lamp represents much of my professional history, my approach to the realization of the first projects. It was born from an open contest by Artemide, I was 35 years old. Initially this lamp should have been made of plastic, but with metal it obtained dry shapes and precision of the edges. Think about the power obtained with these rigid materials, a result which is impossible to have with plastic."

## Out in the World

Un progetto non può prescindere dai vincoli e dalle sollecitazioni esterne. Per questo, Tacchini dialoga, comprende e traduce il pensiero dei progettisti e dei suoi clienti: esprimendo, nel mondo del contract, la qualità delle sue realizzazioni, attraverso l'impiego dei migliori materiali secondo le più severe normative di riferimento e certificazioni. Luoghi ludici o di lavoro, hotel, stadi, centri per il benessere o dedicati allo shopping, diventano palcoscenici sui quali Tacchini esprime l'unicità e la resistenza, il comfort e la flessibilità dei suoi progetti. Non solo, il costante rapporto con la contemporaneità e le sollecitazioni che ne derivano, rendono Tacchini un autentico sismografo dell'essere: attento recettore e propositore di nuove possibilità, per un vivere meglio tutti. *Anywhere, out of the world.*

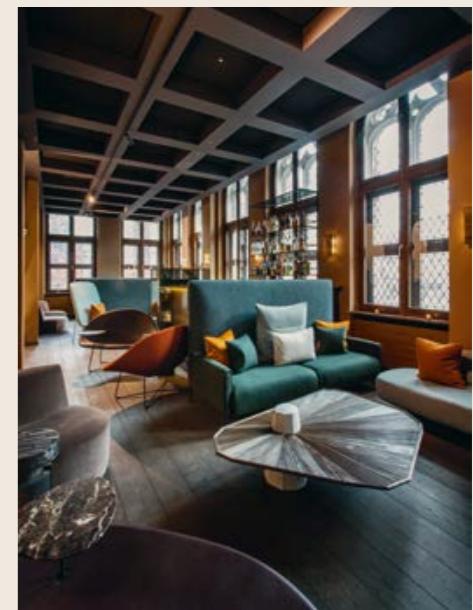

(Eng) A design cannot be considered in isolation from external constraints and stresses. This is why Tacchini maintains a dialogue so as to grasp and interpret the thoughts of its designers and of its clients. In the contract world, this enables it to express the quality of its products, using the best materials and complying with the strictest standards and certifications. Places of work or play, hotels, stadiums, wellness centres or shopping malls, all become the stage on which Tacchini can express the uniqueness of its designs, their durability, comfort and versatility. What's more, the constant relationship with the modern world and the stresses it brings makes Tacchini a veritable seismograph of the state of being: an accurate sensor and promoter of new possibilities, bringing better living for all. Anywhere, out of the world.

## Sesann

Un sistema di divani e poltrone che suscitano una sensazione di sensuale calore, con le loro forme morbide, accoglienti, pienamente protagoniste dello spazio anche in virtù dell'importanza dei volumi. A questa sensazione estetica e fisica, si aggiunge la peculiarità della struttura avvolgente ed a vista, in tubolare metallico cromato o verniciato. I piedi di supporto sono in legno di frassino tinti noce o grigio. Diversi i rivestimenti disponibili, in pelle o tessuto, per creare molteplici sensazioni e abbinamenti cromatici con la struttura.

Designer, Year: Gianfranco Frattini, 1970

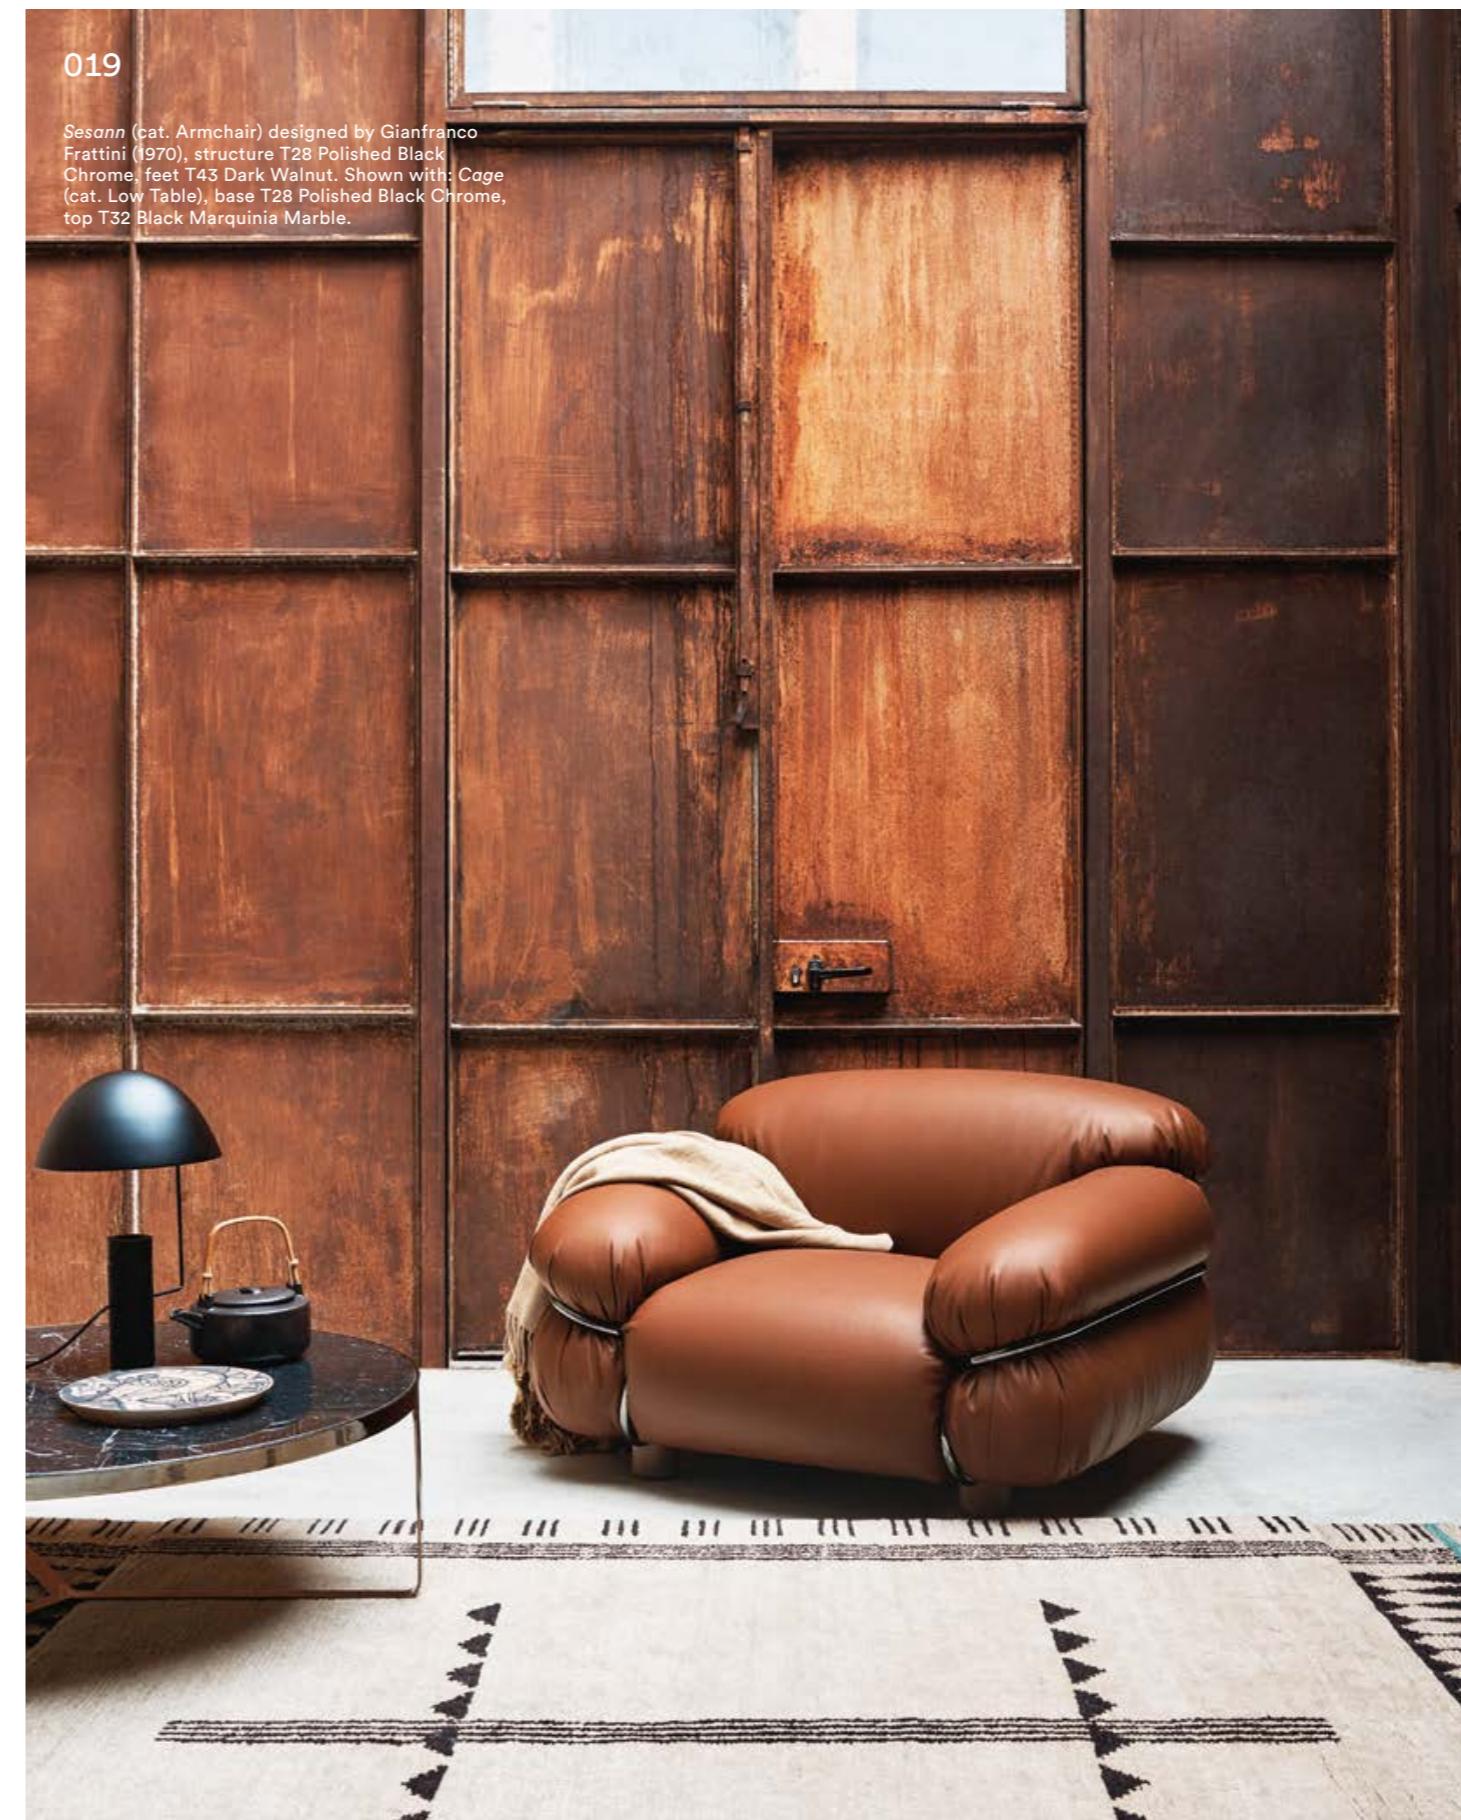

Development: Tacchini, 2015

(Eng) A system of sofas and armchairs that create a feeling of sensual warm, with their soft, comfortable shapes which are definitely the protagonists of space also due to the importance of volumes. In addition to this aesthetic and physical feelings, there is the peculiarity of its embracing structure, which can be in metallic chromed or painted tubular. The feet are made with ash wood dyed grey or walnut. Different upholsteries are available, leathers or fabrics, in order to create various feelings and chromatic combinations with the structure.

*Design Classics: Sesann*  
Respecting the thought of Gianfranco Frattini, the new edition of Sesann keeps the spirit of the product intact. Characterized by a leather upholstery, Sesann owes its typical soft and enveloping form to the structure in pine plywood, covered with polyurethane foam and encircled with an architectural tubular steel (chromed or painted), with feet in ash wood. The particular configuration of Sesann – both formal and functional – constitutes the basis for a system of products characterized by the same structural elements, but declined in unique and fascinating objects. This approach of synthesis and reduction, proposed by Frattini, produced a formally elegant design, conceptually elaborated and, above all, unique.

*Designer: Gianfranco Frattini*  
Gianfranco Frattini was born in Padua, Italy, on 15th May, 1926. He graduated in Architecture, at the Politecnico, Milan, in 1953. At the end of the 50's, he is one of the founders of ADI, Association for Industrial Design. Frattini opened his own studio in Milan, after working in the office of his teacher and mentor Gio Ponti. In few years, he became an industrial designer, well-known worldwide. Among his many successful projects, in 1956 designed the chair model 849, nominated for the "Compasso d'Oro" Prize. Now, this armchair, which takes shapes from the original design, is proposed by Tacchini with the name of "Agnese".

(Deu) Ein System von Sofas und Sesseln, die ein Gefühl von sinnlicher Wärme geben. Ihre Formen sind weich und gemütlich. Zu diesem ästhetischen und physischen Gefühl kommt die Besonderheit der sichtbaren einhüllenden Struktur: ein verchromtes oder lackiertes Metallrohr. Die Füße sind aus grau gebeizter Esche oder Nuss. Verschiedene Bezüge aus Leder oder Stoff sind verfügbar und formen haptische und farbliche Kombinationen mit der Struktur.

(Fra) Un système de sofas et fauteuils qui suscitent une sensation de chaleur sensuelle avec leurs formes douces, accueillantes, qui sont les protagonistes de l'espace aussi grâce à ses volumes importants. À cette sensation esthétique et physique, s'ajoute la particularité de la structure enveloppante et exposée, en tubulaire métallique chromatique ou verni. Les pieds sont en bois de frêne teinté gris ou noyer. Différents revêtements disponibles en cuir ou tissu, pour créer de multiples sensations et associations chromatiques avec la structure.

**Agnese**

Agnese è la fedele riedizione di un progetto di Gianfranco Frattini, segnalato al *Compasso d'Oro* nel 1956. La poltrona è realizzata con precisione filologica, prestando grande attenzione ai dettagli come le cuciture dei braccioli. È caratterizzata da una struttura leggera in legno di frassino che sorregge con grazia lo schienale e la seduta con cuscino e braccioli. Alla poltrona si può abbinare il pouf coordinato, sempre su disegno originale di Frattini.

(Eng) Agnese is a faithful reissue of the Gianfranco Frattini design, nominated for a *Compasso d'Oro* in 1956. The armchair is painstakingly true to the original design, right down to details such as the stitching on the armrests. It features a light frame in ash wood, which elegantly supports the backrest and the seat with its armrests and cushion. A matching pouf is also available, again produced to Frattini's original design.

*Design Classics: Agnese*  
*Agnese* is the name of the new version of the 849, the armchair designed by Gianfranco Frattini around 1956 in his Milan studio, in via Sant'Agnes in fact. All the style and radiance of an age take shape in the lines of this armchair which is much more than a classic and almost an archetype. *Agnese*, the armchair, is produced in a very accurate way and with extreme fidelity to the original design; moreover, following from Frattini's original project, the armchair is accompanied by a matching ottoman. *Agnese* is just the beginning of a comprehensive project that aims to support the revival of a great designer's style but also an entire atmosphere of interior decor.

(Deu) *Agnese* ist die getreue Neuauflage eines Modells von Gianfranco Frattini, das 1956 für den *Compasso d'Oro* nominiert wurde. Der Armsessel ist mit philologischer Genauigkeit in jedem Detail ausgeführt, wie zum Beispiel die Nähte an den Armlehnen. Charakteristisch ist das leichte Gestell aus Eschenholz, von dem Rückenlehne und Sitzfläche, komplett mit Kissen und Armlehnen, mit Anmut gestützt werden. Der Armsessel kann mit einem passenden Hocker, ebenfalls im originalen Design von Frattini ergänzt werden.

(Fra) *Agnese* est la réédition fidèle d'un projet de Gianfranco Frattini, mentionné au *Compasso d'Oro* en 1956. Le fauteuil est réalisé avec une précision philologique, en accordant une grande attention aux détails comme les coutures des accoudoirs. Il est caractérisé par une structure légère en bois de frêne qui soutient avec grâce le dossier et l'assise avec coussin et accoudoirs. Le fauteuil peut être complété par un pouf assorti, toujours sur dessin original de Frattini.

## Giulia

Riedizione di un progetto originale di Gianfranco Frattini del 1957, ancora attuale nelle forme e nello spirito, la poltrona con poggiapiedi Giulia è il perfetto connubio di bellezza, comfort e armonia. La scocca, che riprende e aggiorna le forme di una classica poltrona da lettura, è in appoggio sulla base in legno, essenziale alla definizione dell'estetica di questo progetto, un classico del design, non a caso dedicato da Frattini alla moglie del suo maestro Gio Ponti.

Designer, Year: Gianfranco Frattini, 1957

Development: Tacchini, 2016

(Eng) A reissue of an original 1957 design by Gianfranco Frattini, the shape and spirit of Giulia are as contemporary today as ever. The armchair with footrest is the perfect combination of beauty, comfort and harmony. The shell, which echoes and renews the shapes of a classic reading chair, stands on a wooden base, essential in defining the aesthetic of this design classic, which Frattini aptly dedicated to the wife of his teacher and guide, Gio Ponti.

### Giulia

(Deu) Der Lehnsessel mit Fußstütze Giulia, Neuauflage eines originalen Projekts von Gianfranco Frattini aus 1957, ist in Formen und Charakter immer noch aktuell und eine perfekte Union aus Schönheit, Komfort und Harmonie. Die Sitzschale, in der aktualisierten Form eines klassischen Lesesessels, stützt sich auf ein schlichtes Untergestell aus Holz, das für die Ästhetik des Modells prägend ist: kein Zufall, dass Frattini diesen Designklassiker der Frau seines Meisters Gio Ponti gewidmet hat.

(Fra) Réédition d'un projet original de Gianfranco Frattini de 1957, encore actuel dans les formes et dans l'esprit, le fauteuil avec repose-pieds Giulia incarne l'union parfaite entre beauté, confort et harmonie. La coque, qui reprend et actualise les formes d'un fauteuil de lecture classique prend appui sur la structure en bois, essentielle pour la définition de l'esthétique de ce projet, un classique du design, que Frattini a voulu dédier à la femme de son maître Gio Ponti.

## Shelter

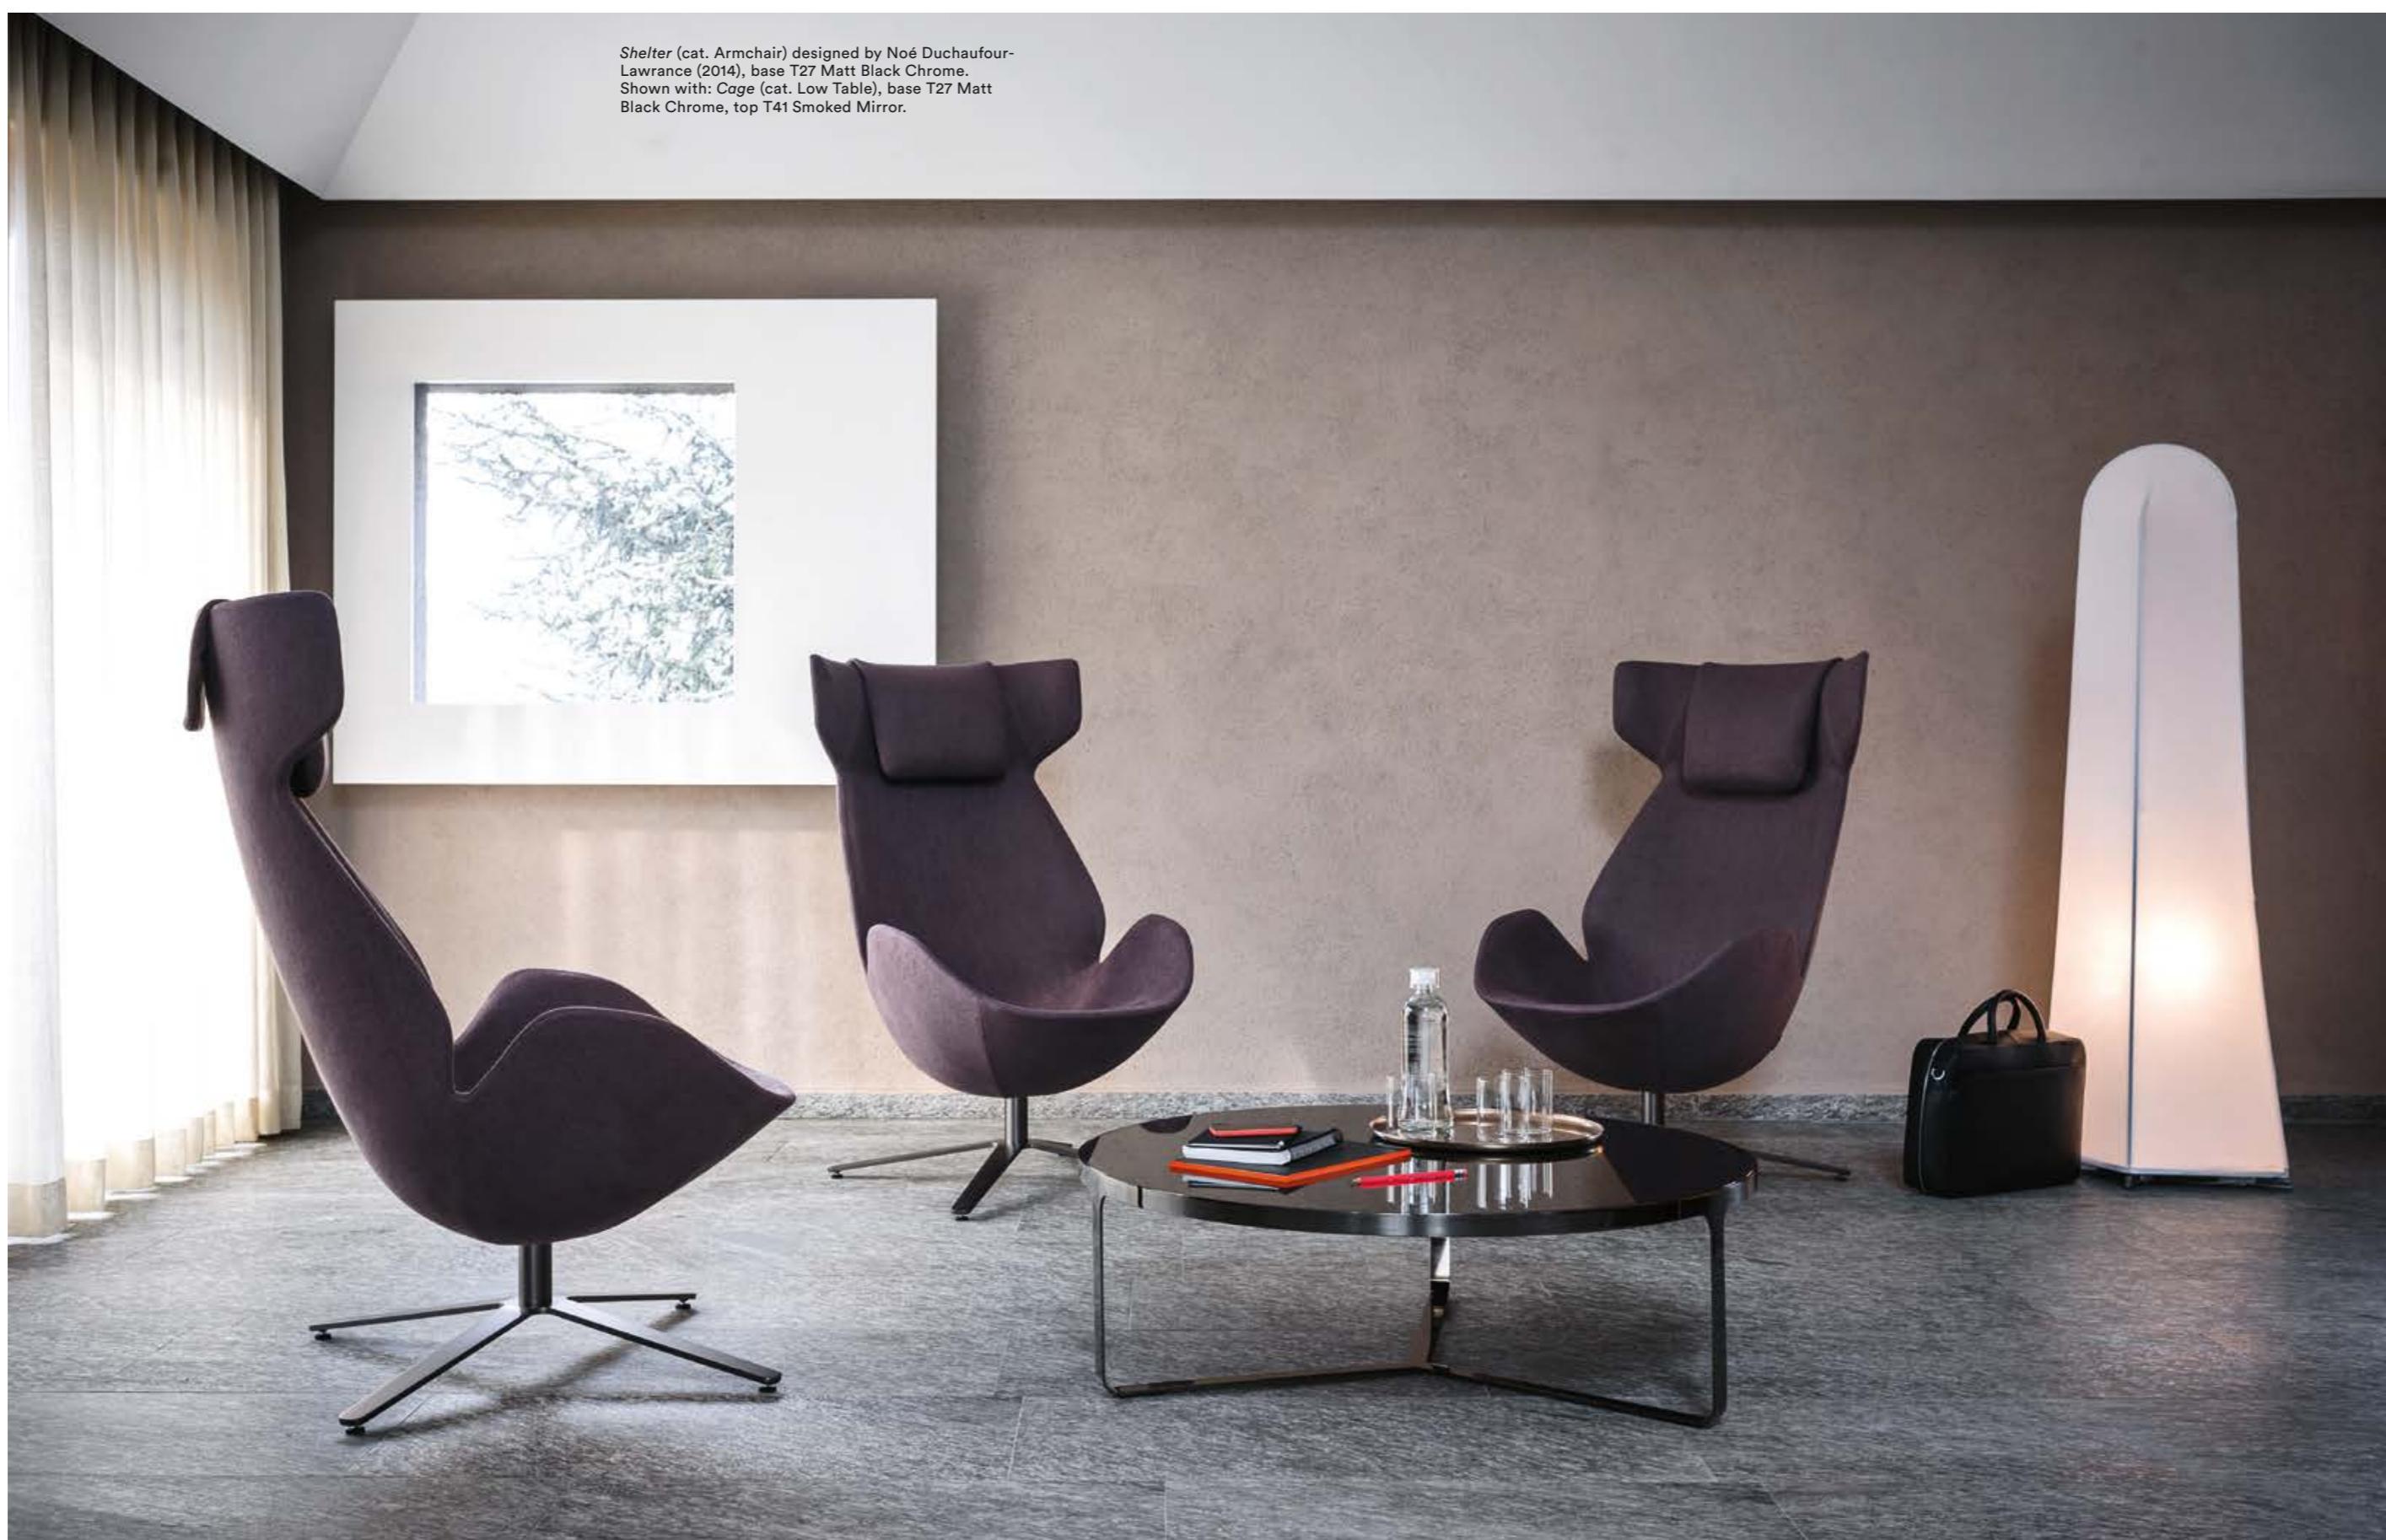

Con la sua scocca a forma di uovo e l'ampio poggiatesta completato da un cuscino, la poltrona Shelter è disegnata per accogliere il corpo come in un abbraccio. Protettiva e avvolgente, è comunque caratterizzata da un disegno estremamente semplice e leggero, fatto di curve armoniose e sottili profili che le conferiscono un fascino particolare.

### Shelter

(Deu) Mit seiner eiförmigen Schale und einer breiten Kopfstütze, die mit einem Kissen ergänzt wird, ist der Sessel *Shelter* gemacht, um den Körper wie mit einer Umarmung zu empfangen. Schützend und umhüllend, ist seine Linie einfach und leicht mit harmonischen Kurven und dünnem Profil, das einen besonderen Charme gibt.

(Fra) Avec sa coque qui rappelle la forme d'un œuf et le large appuie-tête complété par un coussin, le fauteuil *Shelter* est dessiné pour accueillir le corps comme une embrassade. Protecteur et envoûtant, il est caractérisé par un dessin extrêmement simple et léger, fait de courbes harmonieuses et des profils fins qui lui donnent un charme particulier.

**Designer:** Noé Duchaufour-Lawrance  
Designer and interior architect, Noé Duchaufour-Lawrance has defined his own language using natural shapes which are supple, organic, fluid and structured at the same time. A double passion for the material and for the shape embodied by a double faceted course of studies: first of all following a course in Sculpture on Metal (at the Ecole Nationale Supérieure des Arts Appliqués et des Métiers d'Art), then design at the Arts Décoratifs in Paris. In response to a creative family environment (his father was a sculptor), Noé Duchaufour-Lawrance very quickly displayed an unusual aesthetic quality, which stands out, beginning with the restaurant Sketch in Soho in 2002. He established his own design studio the following year and has henceforth seized each project as a real opportunity to define an aesthetic quality of his own, to design harmonious objects and areas with an aim to establish an emotional bond with nature.

## Kelly E, H, L + F

Kelly è una famiglia di sedute caratterizzate da uno spirito amichevole e giocoso, espresso attraverso forme organiche, colori puri e brillanti, sensazioni positive. La personalità di ciascun modello è caratterizzata dalle diverse forme e proporzioni dello schienale e del sedile, sempre sospesi su sottili strutture metalliche, con un richiamo agli arredi vintage e alle opere dell'arte moderna. Le sedute Kelly possono vivere da sole oppure creare diversi abbinamenti e composizioni, negli ambienti domestici come negli spazi del contract. La poltrona lounge può essere completata da un pouf poggiapiedi coordinato.

Designer, Year: Claesson Koivisto Rune, 2013

(Eng) Kelly is a collection of chairs characterized by a friendly and jovial spirit which is expressed with organic shapes, pure and shiny colours and positive feelings. The personality of every model is distinguished by various shapes and sizes of seat and backrest, always suspended on thin metallic structures which remind vintage furniture and modern art's works. Kelly chairs can stay independent or create different combinations and compositions, both in domestic and public environments. Kelly lounge armchair can be also combined with a coordinated footrest.

## Doodle

In inglese la parola *doodle* significa scarabocchio e descrive i disegni che si fanno mentre la mente è concentrata su qualcos'altro. Queste linee tracciate quasi per caso sono diventate la cifra stilistica dell'omonima poltrona, caratterizzata da una cucitura a vista tono su tono o a contrasto con la tinta del rivestimento. Doodle è pensata sia per gli spazi domestici sia per quelli del contract, anche in abbinamento a sedie e sgabelli della stessa serie.

These almost-random lines have become the key stylistic feature of these chairs of the same name, with their visible tone-one-tone or contrasting stitching. *Doodle* is designed for both domestic and contract use, and combines beautifully with the reception chairs and stools from the same series.

(Deu) *Doodle* ist ein englischer Ausdruck für Kritzelei und beschreibt Zeichnungen, die man unwillkürlich ausführt, wenn man sich auf etwas anderes konzentriert. Diese wie zufällig hingeworfenen Linien wurden zum stilistischen Merkmal des gleichnamigen Sessels, mit der charakteristischen Naht auf Sicht in der gleichen Farbe wie der Bezug oder von diesem farblich abgesetzt. *Doodle* eignet sich für den häuslichen Raum ebenso wie für Objekteinrichtungen, auch in Verbindung mit den Stühlen und Hockern der gleichen Serie.

(Fra) En anglais, le mot *Doodle* signifie gribouillage et décrit les dessins que l'on fait quand l'esprit est concentré sur quelque chose d'autre. Ces lignes tracées presque par hasard sont devenues le trait stylistique du fauteuil du même nom, caractérisé par une couture apparente ton sur ton ou en contraste sur la couleur du revêtement. *Doodle* est pensé aussi bien pour les espaces domestiques que pour les espaces collectifs, associé éventuellement aux chaises et aux tabourets de la même série.

## Jacket

061

Visibilmente ispirata al mondo della moda, la poltrona Jacket si presenta in una versione rinnovata nella realizzazione sartoriale e nelle tonalità della struttura metallica, dalle linee snelle e sinuose. Il tessuto trapuntato non si limita a vestirla, ma diventa esso stesso una morbida ed accogliente scocca, con un bordo che ricorda il bavero di una giacca. Due cuscini aggiungono una soffice sensazione di comfort.

#### Jacket

(Deu) Der Sessel *Jacket*, der sichtbar von der Welt der Mode beeinflusst ist, präsentiert sich in einer erneuerten, maßgeschneiderten Ausführung und in neuen Farben für das metallische Untergestell in schlanken, geschwungenen Linien. Der gesteppte Bezug ist nicht nur eine Bekleidung, sondern wird selbst zu einer weichen, behaglichen Sitzschale, mit einem oberen Abschluss, der an einen Rockkragen erinnert. Verstärkt wird der flauschige Komfort durch zwei Kissen.

(Fra) S'inspirant clairement du monde de la mode, le fauteuil *Jacket* se présente dans une version renouvelée dans la fabrication très « couture » et dans les teintes de la structure métallique, aux lignes fines et sinueuses. ## Pisa

Disegnata principalmente per spazi pubblici, uffici o alberghi, Pisa è una poltrona imbottita di dimensioni compatte, adatta ad ambienti ristretti, senza tralasciare il comfort e l'estetica. Le sue forme minimali avvolgono il corpo, creando una sensazione intima e personale. Il suo disegno geometrico, con schienale inclinato e caratteristico profilo tagliato, crea una forte personalità nonostante le misure contenute.

Angoli obliqui che ricordano le forme di antichi obelischi, creando un architettonico gioco di luci e di ombre. Volumi pieni che sembrano magicamente galleggiare sul pavimento, su una base nascosta alla vista. Crystal è una famiglia di divani e poltrone, che si distacca dagli standard e dai luoghi comuni, generando un senso di sospensione e di dinamismo, senza utilizzare inutili artifici estetici, ma puntando su una sapiente, quanto assoluta, semplicità.

## Isola

In una situazione d'attesa le persone tendono naturalmente ad assumere una postura più rilassata, soprattutto mentre usano computer, laptop e smartphone per lavoro o passatempo. Da questa riflessione è nata Isola, una poltrona dal design contemporaneo che risponde all'esigenza di vivere comodamente anche i luoghi pubblici o semi-pubblici. Isola è caratterizzata da una forma visivamente accogliente e invitante, e da una seduta ampia e profonda. La possibilità di combinare la seduta con un tavolino ovale, integrato sul lato destro o sinistro, la rende ancora più funzionale, incoraggiandone l'uso in ogni ambito del contract.

(Eng) In waiting spaces, people naturally tend to assume a relaxed posture, particularly while using their computer, laptop or smartphone for work or to pass the time. This consideration was the starting point for the conception of Isola, an armchair with a contemporary design that responds to the need for comfort in public or semi-public places. Isola features a visually inviting shape, and a broad, deep seat. The possibility of combining the seat with an oval table, built into the left or right side, makes it even more practical, and ideal for use in all contract situations.

## Isola

(Deu) Beim Warten nehmen Menschen unwillkürlich eine entspannte Haltung ein, vor allem wenn sie mit Computer, Laptop oder Smartphone arbeiten oder sich die Zeit vertreiben. Das ist der Grundgedanke für das Design von Isola, ein zeitgenössisch anmutender Fauteuil, der dem Bedürfnis nach Komfort auch in öffentlichen oder halb-öffentlichen Räumen Rechnung trägt. Charakteristisch für Isola sind die bereits für das Auge behaglich einladende Form und die großzügige, tiefe Sitzfläche. Durch ein ovales Tischchen, das rechts oder links angebaut werden kann, ist das Möbel noch funktioneller und eine ideale Lösung auch für den Objektbereich.

(Fra) Dans une situation d'attente, les personnes tendent naturellement à prendre une posture plus décontractée, surtout quand elles utilisent l'ordinateur ou un smartphone pour le travail ou comme passe-temps. C'est de cette réflexion qu'est né Isola, un fauteuil au design contemporain qui répond à l'exigence de vivre confortablement y compris dans les lieux publics ou semi-publics. Isola est caractérisé par une forme accueillante et invitante, et par une assise large et profonde. La possibilité d'associer au fauteuil une table basse ovale, intégrée sur le côté droit ou gauche, le rend encore plus fonctionnel et adapté également aux espaces collectifs.

## Sancarlo

Sancarlo è la riedizione di un classico firmato da Achille Castiglioni. La seduta, nelle due versioni poltrona e divano, è costituita da una struttura semplice e lineare in tubo curvato, su cui sono posizionati diversi volumi imbottiti. Un concetto all'avanguardia per l'epoca in cui venne presentato, reso ancora più efficace oggi dalle imbottiture differenziate, che cambiano densità in base alla zona del corpo che devono supportare. Seduta di grande personalità, Sancarlo è una vera icona del design del XX secolo.

(Eng) Sancarlo is a reissue of a classic designed by Achille Castiglioni. Both versions, armchair and sofa, are composed of a simple, linear, curved tubular frame, on which a number of upholstered cushions are positioned. A ground-breaking concept when it was first presented, it has now been made even more effective with differentiated foam filling, in which the density varies according to the region of the body to be supported. Full of character, Sancarlo is a veritable icon of 20th-century design.

*Design Classics: Sancarlo*  
The Sancarlo armchair is a treatise on statics, ergonomics, function and geometry. Commissioned at the time by Driade, Achille Castiglioni has taken up again the idea of the Sanluca, designed a few decades earlier with his brother Pier Giacomo. The result is the breaking-down of the seat into a series of cushions which curve to each part of the body they have to support.

*Designer: Achille Castiglioni*  
The Castiglioni studio was established in 1938 by brothers Livio and Pier Giacomo, while for certain projects, Luigi Caccia Dominioni also worked alongside them. In 1944 Achille joined the studio: the partnership between the three brothers continued until 1952, when Livio set up on his own, while continuing to work with Pier Giacomo and Achille for some special projects. Achille and Pier Giacomo worked together without any clear division of roles, but with equal participation, and constant discussion and exchange of ideas. This collaboration continued until Pier Giacomo died in 1968. Achille continued to work in the same way as he always had done with his brother, and indeed it is almost impossible to detect any difference in his approach to projects, other than the natural social and technological changes that came about with the evolving times.

(Deu) *Sancarlo* ist die Neuauflage eines Design-Klassikers von Achille Castiglioni. Das Sitzmöbel, in den Ausführungen als Fauteuil und Sofa, besteht aus einer schlichten, linearen Struktur aus gebogenem Metallrohr, in die Polsterungen verschiedener Volumen eingesetzt werden. Ein supermodernes Design für die damalige Zeit, das heute durch differenzierte Polsterungen, die je nach dem zu stützenden Körperteil unterschiedliche Härten aufweisen, noch wirkungsvoller ist. *Sancarlo* ist ein charakterstarkes Sitzmöbel und eine Stilikone des 20. #### Parentesi

(Deu) Der Name Parentesi, auf Deutsch runde Klammer, beschreibt einfach und wirkungsvoll diese Kollektion, die sich durch saubere, minimalistische Kurvenlinien auszeichnet. Eine klassische, körpernahe Form wird mit diesem Fauteuil neu interpretiert, um in unterschiedliche Umgebung und Zusammenstellung zu passen; das Sofa hingegen ist als komplementäres Element konzipiert.

(Fra) Son nom, Parentesi, décrit de façon simple et efficace cette collection, caractérisée par des lignes courbes nettes et essentielles. Le fauteuil réinterprète une forme classique et enveloppante à l'enseigne de la flexibilité d'intégration et de composition, tandis que le canapé est conçu comme un élément complémentaire.

*Designer: Pietro Arosio*  
Pietro Arosio was born in 1946 in Lissone, near Milan. He learnt his profession at the research centre of a company specialising in the production of metal furniture for communal spaces. This experience led to the emergence of a design philosophy that developed over time through his work as an industrial designer. He began his career in 1972, and was already winning accolades in 1983, receiving the Casaviva d'Oro award. The fundamentals of his work include essentiality, research into new materials and technologies, and attention to detail and to the engineering implications of his designs.

## Glide

L'ispirazione per Glide è stata l'osservazione della natura, il fluido e continuo passaggio da una forma a un'altra e da uno stato all'altro, come la neve che si scioglie in primavera. La seduta, sostenuta da una leggera base in metallo, è ampia e sottile, comoda perché realizzata in poliuretano espanso a quote differenziate che accoglie il corpo in un abbraccio aereo e spontaneo.

## Glide

(Deu) Die erste Inspiration für Glide kommt aus der Beobachtung der Natur, dem fließenden, dauernden Übergang von einer Form zur anderen, von einem Zustand zum anderen – wie Schnee, der im Frühling schmilzt. Die von einer leichten Basis aus Metall gestützten Sitzfläche ist großzügig und schlank, bequem, weil aus Schaumstoff in differenzierten Höhen, die den Körper in einer schwebenden, spontanen Umarmung aufnimmt.

(Fra) L'inspiration pour Glide a été l'observation de la nature, le passage fluide et continu d'une forme à une autre et d'un état à l'autre, comme la neige qui fond au printemps. L'assise, soutenue par une base légère en métal, est large, fine et confortable parce qu'elle est réalisée en mousse de polyuréthane de densité variable qui accueille le corps dans une étreinte aérienne et spontanée.

## Kelly C + C Basic

Ispirata alle opere dell'artista minimalista Ellsworth Kelly, la sedia omonima è caratterizzata da una sottile struttura metallica e dalla scocca imbottita dalla forma semplice e lineare. Una seduta essenziale e preziosa per contesti colti ed eleganti, sia domestici sia del contract, che si può affiancare ai tavoli della stessa collezione.

## Babelà

Progettata nel 1958 da Achille e Pier Giacomo Castiglioni per la Camera di Commercio di Milano, Babelà è un ottimo esempio di come funzionalità ed estetica possano coesistere nella stessa seduta, una poltroncina comoda e impilabile dal disegno rigoroso, in linea con l'ambiente istituzionale per cui è pensata. La riedizione porta Babelà dentro spazi contemporanei, trasformando la struttura in ferro dell'originale in una base in legno di frassino, più caldo e naturale.

Designer, Year: Achille + Pier Giacomo Castiglioni, 1958  
Development: Tacchini, 2010

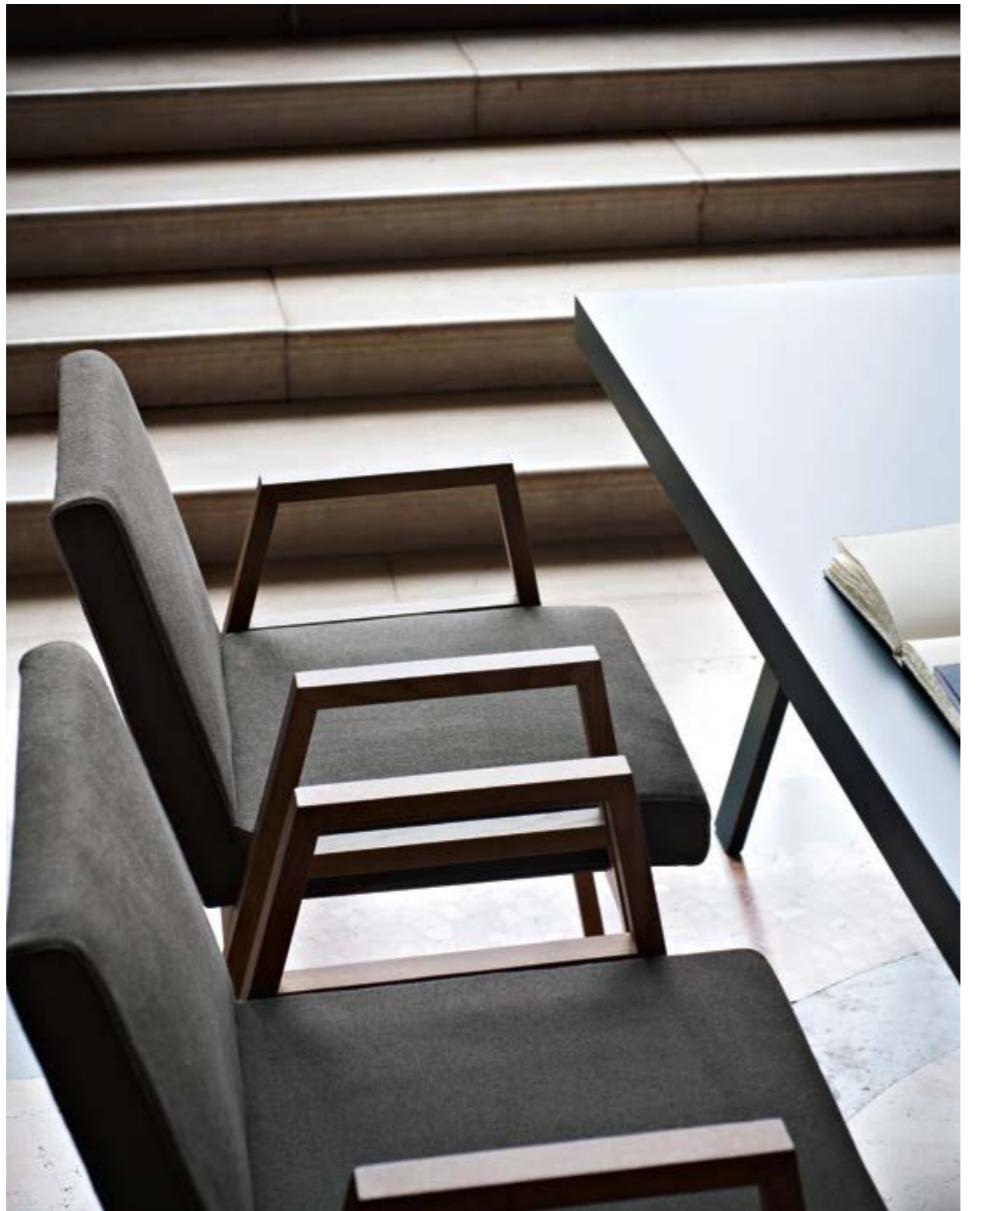

(Eng) Designed in 1958 by Achille and Pier Giacomo Castiglioni for the Milan Chamber of Commerce, Babelà is an excellent example of how practicality and aesthetics can work together in the same chair, a comfortable, stackable easy chair with a rigorous design perfect for the institutional setting for which it was conceived. This reissue brings Babelà into contemporary spaces, transforming the original iron frame into a warmer, more natural ash wood one.

*Design Classics: Babelà*  
There are designs which are born classics in name only. Babelà is one of those designs and one of those names. In 1958 Achille Castiglioni designed this small armchair to add to the furniture of the Milan chamber of commerce. Comfort meets form and function which is revealed in the possibility of stacking this seat up like a tower. Its design was simple and archetypical, with a particular mixture of materials, visual texture and tactile effects.

*Designers: Achille + Pier Giacomo Castiglioni*  
The Castiglioni studio was established in 1938 by brothers Livio and Pier Giacomo, while for certain projects, Luigi Caccia Dominioni also worked alongside them. In 1944 Achille joined the studio: the partnership between the three brothers continued until 1952, when Livio set up on his own, while continuing to work with Pier Giacomo and Achille for some special projects. Achille and Pier Giacomo worked together without any clear division of roles, but with equal participation, and constant discussion and exchange of ideas. This collaboration continued until Pier Giacomo died in 1968. Achille continued to work in the same way as he always had done with his brother, and indeed it is almost impossible to detect any difference in his approach to projects, other than the natural social and technological changes that came about with the evolving times.

## Babela

(Deu) Babela, 1958 von Achille und Pier Giacomo Castiglioni für die Handelskammer Mailand entworfen, beweist sehr schön, dass Funktion und Ästhetik in einem Sitzmöbel gemeinsam bestehen können: der bequeme Sessel ist stapelbar, das rigorose Design passt genau in die förmliche Umgebung, für die es entworfen wurde. Für die Neuauflage, die Babela in zeitgemäße Räume führt, wurde die eiserne Struktur durch eine warme, natürliche Basis aus Eschenholz ersetzt.

(Fra) Conçue en 1958 par Achille et Pier Giacomo Castiglioni pour la Chambre de commerce de Milan, Babela est un excellent exemple de comment la fonctionnalité et l'esthétique peuvent coexister dans le même siège, un petit fauteuil confortable et empilable au dessin rigoureux, adapté au contexte institutionnel pour lequel il a été conçu. La réédition porte Babela dans des espaces contemporains, en transformant la structure en fer de l'original en une base en bois de frêne, plus chaud et naturel.

## Doodle

Come la poltrona della stessa collezione, anche la sedia e lo sgabello sono ispirati ai *doodle*, disegni tracciati distrattamente mentre si pensa ad altro e ripresi, in queste sedute, nelle cuciture a vista tono su tono o a contrasto con la tinta del rivestimento. Progettati per rispondere alle più diverse esigenze, sedie e sgabelli Doodle arredano ambienti domestici così come luoghi del contract, dagli spazi di lavoro a quelli dell'ospitalità.

## Doodle

(Deu) Wie der Sessel der Kollektion, lassen sich auch Stuhl und Hocker von doodles anregen, unbewusst hingeworfene Linien, wenn die Gedanken woanders sind. In diesen Sitzmöbeln werden sie in den Nähten auf Sicht in der gleichen Farbe wie der Bezug oder von diesem farblich abgesetzt, wieder aufgegriffen. Die Stühle und Hocker Doodle wurden für unterschiedliche Bedürfnisse entworfen und passen ebenso in die Wohnung, in das Büro wie in gastgewerbliche Räume.

(Fra) Comme le fauteuil de la même collection, la chaise et le tabouret s'inspirent eux aussi des gribouillages, dessins griffonnés distraitemment en pensant à autre chose et repris, dans ces sièges, dans les coutures apparentes ton sur ton ou en contraste sur la couleur du revêtement. Conçus pour répondre aux exigences les plus variées, les chaises et les tabourets Doodle s'intègrent dans un intérieur comme dans un lieu public, des espaces de travail aux espaces d'accueil.

## T-Chair

201

La sedia T-Chair è costituita da un sottile telaio in profilo rettangolare di ferro, curvato e verniciato, sul quale sono fissate le forme morbide del sedile e dello schienale, realizzati in legno oppure imbottiti e rivestiti con tessuti di eleganza sartoriale. Semplice, versatile e raffinata, è adatta a una molteplicità di situazioni, dalla casa agli ambienti collettivi, anche grazie alla sua impilabilità.

Designer, Year: Barazzuol/Malisan, 2011

*Designer: Barazzuol/Malisan*  
Roberto Barazzuol and Cristian Malisan come from different backgrounds within the design world, but they share the same passion for the history of design and of the visual arts. In 2010 they established a research, art direction, corporate image, exhibition and product design atelier together. Their focus is on contemporary codes of communication, and they are drawn to the evocative features of products. They take a tailor-made approach to the companies with which they work, handling products and graphics as well as image, fabrics, exhibitions and sets, and anything else you can imagine or design.

## Dressed

Come il divano della stessa collezione, cui si accompagna, la sedia Dressed è caratterizzata dall'imbottitura cucita direttamente nel rivestimento. Un effetto ispirato al mondo dello sportswear che volutamente ricorda l'estetica di un capo tecnico e dà alla seduta un tocco contemporaneo, in linea con la base metallica girevole. Compatta ed espressiva, Dressed si adatta agli spazi domestici così come ai luoghi del contract, soprattutto in ambito lavorativo e corporate.

Designer, Year: Luca Nichetto, 2012

## Dressed

(Deu) Wie beim Sofa der gleichen Kollektion, ist auch beim Sessel Dressed die Polsterung direkt in den Bezug eingenäht. Die Anregung dazu kommt aus der sportlichen Ecke und erinnert an die Ästhetik von Funktionsbekleidung: das gibt dem Sitzmöbel ein modernes Flair, ganz im Einklang mit dem Drehgestell aus Metall. Kompakt und ausdrucksstark, fügt sich Dressed in häusliche Räume ebenso ein wie in Objekteinrichtungen, vor allem im geschäftlichen und kommerziellen Bereich.

(Fra) Comme le canapé de la même collection auquel elle est assortie, la chaise Dressed est caractérisée par le rembourrage cousu directement dans le revêtement. Un effet s'inspirant des vêtements sportifs qui rappelle délibérément l'esthétique d'un article technique et donne à la chaise une note contemporaine, en harmonie avec le piétement métallique pivotant. Compacte et expressive, Dressed s'adapte aux espaces domestiques comme aux espaces collectifs, surtout dans les lieux de travail et les entreprises.

## Fixie

Fixie (cat. Stool) designed by Pearson Lloyd (2011), base T12 Red.

Fixie è uno sgabello realizzato con una struttura tubolare che oltre ad essere pratica, caratterizza il prodotto e lo rende immediatamente riconoscibile, come un motivo grafico tridimensionale o una scultura d'arredo. Questo effetto è accentuato dall'utilizzo di colorazioni originali che rendono Fixie ancora più unico. La qualità estetica non va a discapito della funzionalità: lo sgabello è infatti regolabile in altezza e girevole a 360°.

### Fixie

(Deu) Fixie ist ein Hocker, der aus einer Rohrstruktur realisierte wurde, welche das Produkt charakterisiert und es sofort unvergleichlich wie ein dreidimensionales graphisches Motiv oder eine Einrichtungsskulptur erscheinen lässt. Die ästhetische Qualität nimmt der Funktionalität jedoch nichts: der Hocker ist höhenverstellbar und um 360° drehbar.

## Coot

285

Le forme della natura rappresentano una delle principali fonti di ispirazione del designer Gordon Guillaumier. Il piano del tavolino Coot, ispirato alla pura e semplice geometria di un petalo, è un motivo perfetto per comporre una molteplicità di modelli diversi, partendo da un unico modulo. La struttura di sostegno è pensata per permettere al piano di librarsi sopra una poltrona o un divano: una funzione particolarmente utile quando si utilizza un computer portatile.

Designer, Year: Gordon Guillaumier, 2010

Category: Low Table

(Eng) Nature's shapes represent a major source of inspiration for designer Gordon Guillaumier. The top of the Coot table was inspired by the simple geometry of a petal; it is a perfect motif for generating a variety of different models from one single form. The support structure is designed to allow the top to open up over a chair or sofa, a particularly useful feature when using a laptop computer.

Coot (cat. Low Table) designed by Gordon Guillaumier (2010), base T01 White, top T31 White Calacatta Marble.

(Deu) Die Naturformen stellen eine der Hauptinspirationen des Designers Gordon Guillaumier dar. Die Tischplatte des Tisches Coot, inspiriert durch die einfache und pure Geometrie eines Blütenblattes, ist ein perfektes Motiv welches auf einem einzigen Modul basiert aber die Kombination vieler verschiedener Modelle zulässt. Die Stützstruktur wurde so gedacht, dass die Tischplatte die Möglichkeit hat sich über einem Sessel oder einem Sofa zu entfalten: eine besonders nützliche Funktion, wenn man ein Notebook benutzt.

(Fra) Les formes de la nature représentent l'une des principales sources d'inspiration du designer Gordon Guillaumier. Le plateau de la petite table Coot s'inspire à la géométrie pure et simple d'un pétalement ; c'est le motif parfait pour composer une multiplicité de modèles différents en partant d'un seul modèle. La structure de soutien est conçue afin de permettre au plateau de planer au-dessus d'un fauteuil ou d'un canapé : une fonction particulièrement utile lorsque l'on utilise un ordinateur portable.

## Ledge

289

Progettato come complemento per i divani del sistema modulare Chill-Out, dei quali riprende le linee essenziali, Ledge è un piccolo tavolino con una struttura metallica laterale che dona leggerezza e stabilità. Per le finiture delicate e preziose, Ledge si presta non soltanto a essere usato in ambito contract, ma anche dentro spazi domestici.

#### Ledge

(Deu) *Ledge*, ursprünglich als Zubehör für die modularen Sitzlandschaften *Chill-Out* im gleichen, schlichten Design entwickelt, ist ein Beistelltischchen, dem die seitliche Struktur aus Metall Stabilität und Leichtigkeit verleiht. Mit Anmut und edler Ausführung, ist *Ledge* nicht nur für Objekteinrichtungen, sondern auch für den häuslichen Bereich bestens geeignet.

(Fra) Conçue comme complément pour les canapés du système modulaire *Chill-Out*, dont elle reprend les lignes essentielles, *Ledge* est une petite table d'appoint avec une structure métallique décalée qui lui donne sa légèreté et sa stabilité. Avec ses finitions délicates et précieuses, *Ledge* s'insère facilement dans les espaces collectifs, tout comme dans les espaces domestiques.

## Technical informations

Dalla casa al lavoro — dalle poltrone, scrivanie, lampade e tavoli, fino ai più piccoli utensili quotidiani — ogni oggetto che incontriamo, rappresenta in sé un sistema di idee. Nelle parole di *Baudrillard*, il grande filosofo francese, le case e le cose con cui viviamo, riflettono, sia nella loro forma che attraverso il loro potere comunicativo, la nostra cultura e la nostra società. Più che di grandi rivoluzioni, il design contemporaneo è fatto di piccoli cambiamenti e di lente, pazienti mutazioni del linguaggio visivo che trasforma anche le cose più banali in oggetti straordinari. Il carattere unico e irripetibile degli oggetti di design nasce da queste silenziose rivoluzioni che trasformano forme familiari, usuali e riconoscibili in progetti iconici che catturano lo spirito del proprio tempo.

(Eng) From home to work — from armchairs, desks, lamps and tables, down to the smallest daily utensils — every object we get in touch with is, itself, a system of ideas. From the words of *Baudrillard*, the great French Philosopher, the house and the things, which we live with, reflect both in their form and through their communicative power, our culture and our society. More than great revolutions, contemporary design is made of small changes and slow patient mutations of visual language, which changes even the most mundane things in extraordinary objects. The unique character of design objects results from these silent revolutions that transform familiar usual and recognizable forms into iconic projects that capture the spirit of their time.

## Dress Code

Nato da un lavoro creativo e stilistico che non si sovrappone al design dei prodotti Tacchini, ma lo veste di ulteriori significati e valori, questo campionario rappresenta un progetto nel progetto, un dizionario di tessuti e pelli, colori e sensazioni per interpretare gli spazi, le situazioni d'uso ed i gusti più diversi. Una proposta che nasce dall'esplorazione di tante culture e linguaggi estetici, dalla tradizione tessile e conciaria, alla ricerca di materiali innovativi, garantendo sempre i massimi livelli di eccellenza qualitativa e di responsabilità ambientale.

(Deu) Diese Musterkollektion entsteht einer kreativen und stilistischer Arbeit, die das Design der Produkten von Tacchini nicht überläppt. Sie gibt neue Bedeutungen und Werten und bildet ein Projekt im Projekt, ein Wörterbuch von Geweben und Ledern, Farben und Gefühle, um zahlreiche Räume, Situationen und Geschmäcke darzustellen. Ein Vorschlag, das aus der Erforschung von verschiedenen Kulturen, ästhetischen Sprache, Textiltradition und aus der Suche nach innovativen Materialien kommt. Die höchste Niveaus von Exzellenz und Umweltsverantwortung sind garantiert.

(Fra) Cet échantillon a origine à partir d'un travail créatif et stylistique qui ne s'impose pas au design des produits Tacchini, mais lui donne autre sens et valeur. Il représente un projet dans le projet, un dictionnaire de tissus et cuirs, de couleurs et sensations pour interpréter les espaces, les situations et les goûts plus différents. Une proposition mise au jour par l'exploration des plusieurs cultures et langages esthétiques, dès la tradition textile et de tannage à la recherche des nouveaux matériaux. Les plus hauts niveaux d'excellence qualitative et de responsabilité environnementale sont garantis.

(Eng) This fabric collection has emerged from a creative and stylish work, which does not overlie the design of Tacchini's products, but gives new relevance and values. It represents a project inside the project, a dictionary of fabrics and leathers, colors and sensations to interpret the spaces, different situations and the most various tastes. A proposal that comes from the exploration of different cultures and aesthetic languages, from the textile and tanning tradition to the research of innovating materials. High levels of qualitative excellence and environmental responsibility are always guaranteed.

Tacchini is a philosophy. Behind every object there is a story and behind every story there is a person.  
We fall in love with our products, their stories and the stories of those who have produced them,  
and continue to make things by hand — so that this story continues, is passed on by the designer  
to the creator, and from the creator to the future owner of the product. And then, it continues further.
