

elite, TO BE

elite, TO BE

è lo spirito di un viaggio  
attraverso luoghi, materiali,  
attraverso idee, incontri e suggestioni;  
per cercare quello che amiamo,  
per trovare quello che siamo.

elite, TO BE

the spirit of a journey  
through places, materials, through  
ideas, meetings and suggestions;  
to search for what we love,  
to find what we are.

# IL LEGNO MATERIA VIVA

## WOOD IS AN ALIVE MATERIAL

I prodotti di Elite,TO BE in legno massello sono pezzi unici numerati di alto valore composti da pezzi interi, nel caso del legno di suar, o da pezzi di massello di varie larghezze incollati tra loro, nel caso dei legni di rovere e teak.

I legni utilizzati per produrre questi articoli necessitano di una lunga preparazione e vengono sottoposti ad un processo di essiccazione che avviene in atmosfera controllata con un grado di umidità media del 9% ed una tolleranza adeguata.

La loro unicità consiste nella varietà di venature, di colori e di profumi che rendono il prodotto esclusivo. Per questo motivo differenze di tonalità tra le varie parti del mobile non sono da considerarsi difetti, ma caratteristiche naturali e distintive del materiale.

Il legno massello è una materia viva: per tutto il suo ciclo di vita interagisce con l'ambiente circostante restando sensibile alle variazioni climatiche, al calore e al grado di umidità dell'aria. Crepe, fessurazioni e altri mutamenti superficiali nel corso del tempo sono conseguenze del naturale assestamento del legno in relazione alle diverse condizioni ambientali e non possono costituire motivo di reclamo.

Per una corretta cura del materiale, bisogna evitare di posizionare i prodotti vicino a fonti dirette di calore come stufe, caminetti, termosifoni o termoconvettori o alla luce diretta del sole ed è necessario mantenere nell'ambiente un'umidità relativa ideale intorno al 50% - 55%.

Nei tavoli in massello incollati in Rovere e Teak si possono verificare differenze di spessore di qualche millimetro tra i vari pezzi che compongono il top dovuti a movimenti naturali tipici del legno massello. Piccole fessurazioni possono essere chiuse con un apposito "stucco a cera" in formato di stick in varie colorazioni facilmente reperibile in commercio o presso i punti vendita autorizzati Elite,TO BE. Si consiglia di usare l'ecostucco monocomponente ad acqua e di seguire attentamente le istruzioni d'uso.

I piani in pezzo unico si ricavano da tronchi di albero interi tagliati a metà, pertanto le dimensioni possono variare rispetto a quelle generiche indicate a listino. Nel caso in cui si necessiti di misure precise, si prega di inoltrare richiesta specifica all'atto dell'ordinazione.

Elite,TO BE products in solid wood are unique and numbered items of high value. Those in suar are composed by single entire slates whilst the ones in OAK or in TEAK are made with solid wood pieces glued together.

The woods used to produce these items need a long preparation and drying process. This drying process is made under a strict control with a relative average humidity of 9% with a suitable tolerance.

Their uniqueness consists in its unique grains, colours and scents that make the product exclusive. For this reason, tint differences between the various furniture parts are not defects, but naturals and distinctive material's features.

Solid wood is an "alive" raw material: for its entire life cycle it interacts with the surrounding ambience staying sensitive to the atmospheric conditions, to the heat and to the relative humidity level of the air. Cracks, splits and wood changments during the product life are due to the wood adaptation process according to its surrounding atmospheric conditions and cannot constitute reasons to claim.

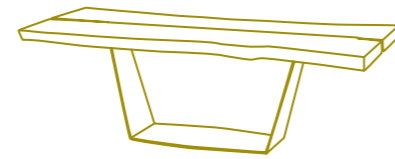

For a proper material cure, please refrain from putting the solid wood products near to direct heat sources like oven, fireplaces, radiators, heat convectors or to the direct sun light. It is necessary to keep in the room a relative humidity level of 50-55%.

Tables made with different pieces of solid wood glued together like for instance the ones in oak or teak wood, slight differences in thickness of some millimeters between the different pieces and possible cracks are to be considered as the natural typical movements of solid woods. Small splits can be plastered with an appropriate wax wood repair stick that you can easily buy in a paint shop or at the Elite,TO BE partner shops. Elite to be recommend to use the monocomponent plaster on water basis and to follow exactly the instructions for use.

Tables made in one or two single pieces are obtained from entire logs cut in the middle, therefore dimensions can vary from those reported in the pricelist. In case that precise dimensions are mandatory, please transmit relevant inquiry with precise indications and relevant precise order to the commercial department.

## TAVOLI

### ALA

Piano tavolo in legno massiccio formato da 2 semipiani in Rovere o Suar, basamento in metallo taglio al laser, nelle seguenti finiture a mano: Corten, Brunito, Bronzato.

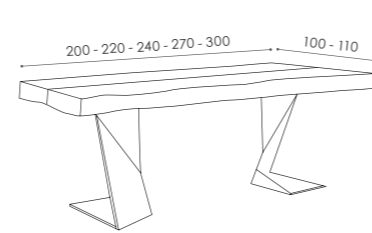

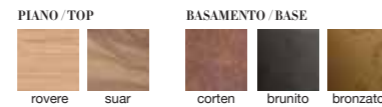

*Solid wood table top composted by 2 oak or suar planks. Laser cut iron base in following hand finishes available: corten, burnished and bronze.*

### DASAR

Piano tavolo in legno massiccio formato da 2 semipiani in Rovere o Suar, basamento in metallo taglio al laser, nelle seguenti finiture a mano: Corten, Brunito, Bronzato.

*Solid wood table top composted by 2 oak or suar planks. Laser cut iron base in following hand finishes available: corten, burnished and bronze.*

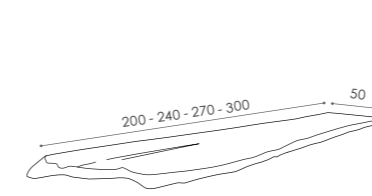

### TROG

Piano tavolo in legno massiccio formato da 2 semipiani in Rovere o Suar, basamento in metallo taglio al laser, nelle seguenti finiture a mano: Corten, Brunito, Bronzato.

*Solid wood table top composted by 2 oak or suar planks. Laser cut iron base in following hand finishes available: corten, burnished and bronze.*

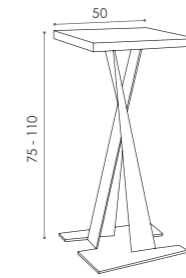

## TAVOLI

### SNACK

Piano in Rovere o Suar massello, con un lato lungo e testa al naturale, tagliato a 90° gli altri due lati.

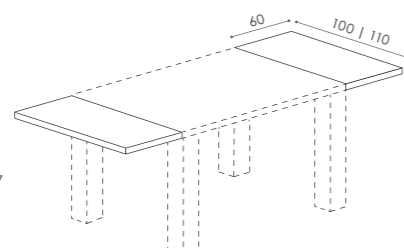

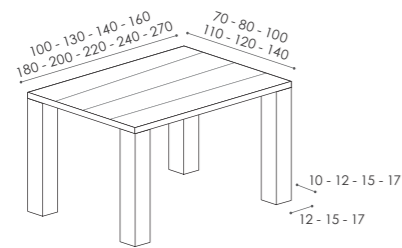

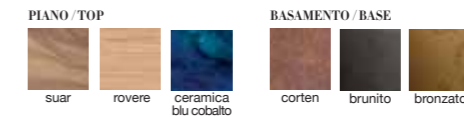

*Solid oak or suar top, with one long side and natural on the top. 90° cut on the other two sides.*

### TAOLIN

Piano in Rovere o Suar massello, base in metallo, taglio laser, finitura manuale in Corten, Brunito e Bronzato.

*Solid oak or suar wood table top and laser-cut iron base with Corten hand finish, burnished or bronze finish.*

### NOA

Piano tavolo in Teak, Teak riciclato o Rovere massiccio.

*Table top in Teak, Recycled Teak or solid Oak.*

Set gambe in fusione di alluminio o nelle seguenti finiture a mano: Corten, Brunito o Bronzato.

*Set of legs in cast aluminium or available in the following hand finishes: corten, burnished, bronze.*

Allunghe in rovere o teak massiccio, con sistema di fissaggio incorporato (non disponibili in Teak riciclato).

*Table extension in Oak or solid Teak with varnished iron fixing system (recycled teak is not available).*

**AL**

Tavolino da caffè e sgabello in fusione di alluminio lucido spazzolato oppure in lamiera con verniciatura a forno tinta Corten, Brunito, Bronzato.

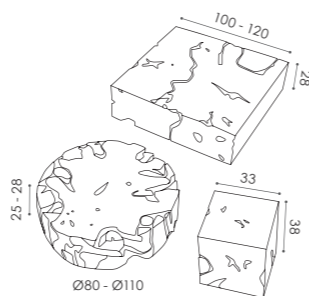

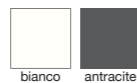

*Coffee table and stool in polished and brushed aluminium or in powder coated iron in following colours: Corten, Burnished and Bronze.*

**FIL DE FER**

Tavolo caffè in ferro intrecciato a mano e pressato, verniciato bianco o antracite.

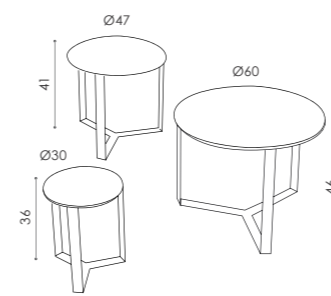

*Coffee table in pressed iron wire, hand braided and varnished in white or anthracite.*

**KOBE**

Tavolino caffè in Radica di Teak levigata e cerata.

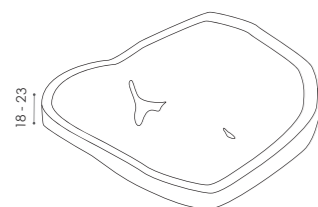

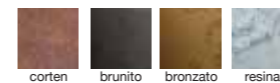

*Coffee table in smoothed and waxed solid teak root.*

**TRIS**

Set tavolini impilabili lateralmente in metallo taglio laser, finiture fatte a mano: Corten, Brunito e Bronzato. Stessa composizione con tavolino Ø60 decorato in resina atossica incisa. Vendita sul set completo.

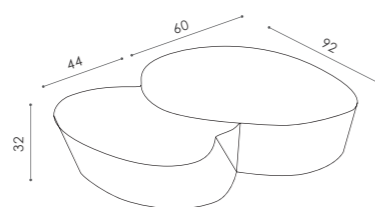

*Trio sideways stackable laser cut coffee-table, available in the following finishing: Corten, Burnished and Bronzed. Same composition with Ø60 coffee-table decorated on top with engraved non-toxic resin. Full set only.*

**KROSS**

Tavolo caffè con piano in Suar massello, base in metallo in finitura a mano: Corten, Brunito, Bronzato.

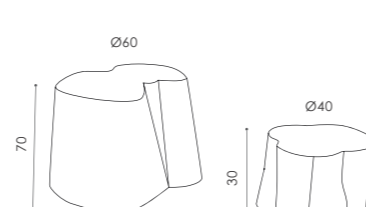

*Coffee table with solid suar wood table top and iron base available in corten, burnished or bronze handfinish.*

**OTTO**

Tavolino da caffè composto da due pezzi in fusione di alluminio, finitura lucida spazzolata.

*Two part polished and brushed cast aluminium coffee table.*

**OTTO LOW E OTTO TALL**

Elementi d'appoggio in fusione di alluminio, finitura lucida spazzolata.

*Polished and brushed cast aluminium coffee tables.*
