

With an emphasis on natural materials, simple geometries, and uncompromising quality, Frama's work connects the imaginative with the practical, resulting in a uniquely warm and honest aesthetic

FRAMA

About Frama	6-7
About this print	8-9
Product overview	84-129

Since the launch of the first collection in 2011, Frama has embraced an organic and collaborative approach to design; an approach that is equally inspired by the old and the new, by digital technologies and analogue traditions. Frama's naturalistic, hands-on approach to design and production has allowed the brand to create a unified aesthetic across a growing range of product collections, including: furniture, lighting, home objects, apothecary, literature, and kitchens.

Based in Copenhagen's Nyboder neighborhood, Frama's headquarters is an ever-evolving showroom space housed in the historic St. Paul's Apotek (established in 1878). Each year, the Frama Studio Store hosts a full calendar of open events, collaborative gatherings, as well as art and design installations.

FRAMA

*“There is nothing more beautiful
and mysterious than simplicity”*

Andrei Tarkovsky

This print is a glimpse into our universe where surfaces, tactility, materials, patina, structures, forms, shapes and lines are being explored and the outcome is the culture of Frama. These things are introduced to the world with the pure intention of Permanency - to become 'future vintage'.

Frama is a multi-disciplinary design studio with a collection of lifestyle objects that inspire the senses and encourage mindful living. With an emphasis on natural materials, simple geometries, and uncompromising quality, Frama's work connects the imaginative with the practical, resulting in a uniquely warm and honest aesthetic.

Lifestyle objects that inspire the senses and encourage mindful living

Frama aspires to maintain a selection of pieces created by various designers, craftsmen and architects

With an emphasis on simplicity, tactility,
and the celebration of natural materials

An approach that is equally inspired by the old and the new, by digital technologies and analogue traditions

A unified aesthetic across a diverse range of collections

Frama ethos; Emphasising the importance of quality craftsmanship and the beauty of natural materials and simple geometries

Conceived as a functional objet d'art

Timeless, site-specific spatial experiences that merge the classic with the contemporary

Guided by a desire to create practical objects
with a sense of meaning and permanence

A collection of carefully crafted, functional objects for everyday life

The Permanent Essentials Collection carries a range of essential pieces that we define as our most utilitarian pieces. The characteristics for this series are to suit essential usages and easily adapt to everyday living situations. The products have a democratic feel and essence to them, that in their practicality and usefulness makes for a high level of agility in different environments. *Study more at framacph.com*

SIGNATURE

As a general core, Frama focuses on functional and practical pieces that aim to have a subtle presence with longevity in mind. Besides being utilitarian objects, our Signature Pieces have an extra sophisticated appearance that defines them Signature. It could be that the manufacturing process is more challenging, demands more special knowledge or craftsmanship. The dynamic of the two collections is pursued to be a cohesive experience whereby the different characteristics balance each other out if placed within the same space. Its Frama's philosophy that juxtapositions create balance and with the two directions we navigate through the universe of simplicity. *Study more at framacph.com*
